Abstracts

Industrial protective clothing constitutes specialized attire fabricated from engineered textiles intended to safeguard personnel operating amid potentially perilous occupational environments from exposure to myriad hazards inherent to industrial settings such as manufacturing plants, construction sites, and mining operations. These dangers encompass noxious chemical substances, biocontaminants, extreme thermal differentials, deleterious ionizing radiation, and mechanical impacts or lacerations. The functional raiment displays particular resistances against distinct threats depending on the composition and structure of the constituent materials whether woven, spun or laminated. For instance, chemically impervious coveralls or gauntlets fashioned from polymers such as Viton® fluoroelastomers withstand contact with harsh solvents and corrosive chemicals, whereas insulative outerwear constructed from non-flammable, heat-resistant fabrics protect against molten metals and flames.

Per market analytics, industrial protective clothing marketed within the European Union is poised to register a Compound Annual Growth Rate exceeding 3.3% accompanied by an incremental expansion valued at USD 600 million throughout the forecast period spanning 2024 to 2030. This propitious projection is attributed to an amalgam of drivers including elevated cognizance of workplace safety protocols amongst management and laborers as well as legislative mandates enforcing the requisite adoption of certified protective accoutrements in certain high-risk industries across multiple European states. Promotional efforts by manufacturers have likewise boosted growth prospects. The combination of heightened hazard awareness and technological advancements in protective textiles presage a robust European industrial clothing market.

This comprehensive industry report provides market estimates and forecasts, accompanied by a detailed examination of the product, end user, and country aspects. It delivers a quantitative analysis of the market, empowering stakeholders to leverage existing market opportunities. Furthermore, the report identifies key segments for

potential opportunities and strategies, drawing insights from market trends and the approaches of leading competitors.

The global baby bottle market has been extensively analyzed by categorizing it according to various sub-segments in order to provide accurate forecasts of industry size and assess trends within specific areas.

The Europe market for industrial protective clothing can be segmented by product: antistatic clothing, chainsaw clothing, chemical protective clothing (CPC), cold and wet clothing, heat and flame-resistant clothing, high visibility clothing. Among these, the high visibility clothing segment was accounted for the highest revenue generator in 2023.

Industrial protective clothing market is further segmented by end user: agriculture, automotive, building and construction, chemicals and petrochemicals, electrical and electronics, food and beverages, forestry, healthcare, logistics, manufacturing, oil and gas, utilities, welding, others.

Based on country, the industrial protective clothing market is segmented into: Germany, France, UK, Italy, Sweden, Belgium, Netherlands, Spain, rest of Europe. Germany held the largest share of the Europe industrial protective clothing market in 2023 and is anticipated to hold its share during the forecast period.

The market research report covers the analysis of key stake holders of the industrial protective clothing market in Europe. Some of the leading players profiled in the report include Alsico Group, Andreas Stihl AG?Company KG, Ansell Ltd., Arco Limited, Asatex AG, Dr?gerwerk AG & Co. KGaA., DuPont de Nemours, Inc., Helly Hansen AS, Honeywell International Inc., Husqvarna AB, Kimberly-Clark Corporation, Kwintet A/S, Mascot International Ltd., MSA Safety Incorporated, Portwest Ltd., Respirix International Limited, Sioen N.V., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Why Choose This Report

Gain a reliable outlook of the industrial protective clothing market in Europe forecasts from 2024 to 2030 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Market Segments Covered in Europe Industrial Protective Clothing Industry Analysis:

i.) Product

Antistatic clothing

Chainsaw clothing

Chemical protective clothing (CPC)

Cold and wet clothing

Heat and flame-resistant clothing

High visibility clothing

ii.) End user

Agriculture

Automotive

Building and construction

Chemicals and petrochemicals

Electrical and electronics

Food and beverages

Forestry

Healthcare

Logistics

Manufacturing

Oil and gas

Utilities

Welding

Others

iii.) Country

Germany

France

UK

Italy

Sweden

Belgium

Netherlands

Spain

Rest of Europe

Contents

PART 1. INTRODUCTION

- 1.1 Description
- 1.2 Objectives of The Study
- 1.3 Market Segment
- 1.4 Years Considered for The Report
- 1.5 Currency
- 1.6 Key Target Audience

PART 2. RESEARCH METHODOLOGY

- 2.1 Primary Research
- 2.2 Secondary Research

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

- 4.1 Introduction
- 4.2 Drivers
- 4.3 Restraints

PART 5. EUROPE INDUSTRIAL PROTECTIVE CLOTHING MARKET BY PRODUCT

- 5.1 Antistatic clothing
- 5.2 Chainsaw clothing
- 5.3 Chemical protective clothing (CPC)
- 5.4 Cold and wet clothing
- 5.5 Heat and flame-resistant clothing
- 5.6 High visibility clothing

PART 6. EUROPE INDUSTRIAL PROTECTIVE CLOTHING MARKET BY END USER

- 6.1 Agriculture
- 6.2 Automotive
- 6.3 Building and construction
- 6.4 Chemicals and petrochemicals

- 6.5 Electrical and electronics
- 6.6 Food and beverages
- 6.7 Forestry
- 6.8 Healthcare
- 6.9 Logistics
- 6.10 Manufacturing
- 6.11 Oil and gas
- 6.12 Utilities
- 6.13 Welding
- 6.14 Others

PART 7. EUROPE INDUSTRIAL PROTECTIVE CLOTHING MARKET BY COUNTRY

- 7.1 Germany
- 7.2 France
- 7.3 UK
- 7.4 Italy
- 7.5 Sweden
- 7.6 Belgium
- 7.7 Netherlands
- 7.8 Spain
- 7.9 Rest of Europe

PART 8. COMPANY PROFILES

- 8.1 Alsico Group
- 8.2 Andreas Stihl AG?Company KG
- 8.3 Ansell Ltd.
- 8.4 Arco Limited
- 8.5 Asatex AG
- 8.6 Dr?gerwerk AG & Co. KGaA.
- 8.7 DuPont de Nemours, Inc.
- 8.8 Helly Hansen AS
- 8.9 Honeywell International Inc.
- 8.10 Husqvarna AB
- 8.11 Kimberly-Clark Corporation
- 8.12 Kwintet A/S
- 8.13 Mascot International Ltd.
- 8.14 MSA Safety Incorporated

8.15 Portwest Ltd.

8.16 Respirex International Limited

8.17 Sioen N.V.
