According to market research study published by Gen Consulting Company, the gas detection equipment market in Europe stood at around USD 851 million in 2021 and is projected to rise to a worth of USD 1,040 million by 2028 end, thereby garnering a CAGR of 2.9% during 2022-2028.

This industry report offers market estimates of the Europe market, followed by a detailed analysis of the product, end user, and country. The Europe market data on gas detection equipment can be segmented by product: fixed gas detectors, portable gas detectors, gas detector tubes. The portable gas detectors segment was the largest contributor to the Europe gas detection equipment market in 2021. Gas detection equipment market is further segmented by end user: chemicals, food processing, oil & gas, utilities, water treatment, others. Based on country, the gas detection equipment market is segmented into: Germany, UK, France, Italy, Rest of Europe.

The Europe gas detection equipment market is highly competitive. The leading players in the virology market include Aerionics Inc., Blackline Safety Corp., Carrier Global Corporation (Det-tronics Autronica), Drägerwerk AG & Co. KGaA, Emerson Electric Co., GfG Instrumentation Inc., Global Detection Systems Corp. (GDS), Halma plc, Honeywell International Inc., Industrial Scientific Corporation, Interscan Corporation, ION Science Inc, MSA Safety Incorporated, Process Sensing Technologies Ltd. (PST), RKI Instruments Inc., Sensor Electronics Corporation, Teledyne Technologies Incorporated, Trolex Ltd.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.
