Abstracts

Genomics provides an overview of the complete set of genetic instructions provided by the DNA, while proteomics studies dynamic protein products and their interactions. Genetics and genomics both play roles in health and disease. The genomics and proteomics tools market in South Korea was estimated at USD 833 million in 2021 and is expected to hit USD 1,634 million by 2028, registering a CAGR of 10.1% from 2022 to 2028 as per the latest report by Gen Consulting Company.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into genomics and proteomics tools market in South Korea. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the genomics and proteomics tools industry.

This industry report offers market estimates and forecasts of the South Korea market, followed by a detailed analysis of the product, and technology. The South Korea market for genomics and proteomics tools can be segmented by product: instruments, reagents and consumables, software. The reagents and consumables segment captured the largest share of the market in 2021. Genomics and proteomics tools market is further segmented by technology: PCR, flow cytometry, mass spectrometry, NGS sequencing, nucleic acid purification, nucleic acid separation, others.

By product:

instruments

reagents and consumables

software

By technology:

PCR

flow cytometry

mass spectrometry

NGS sequencing

nucleic acid purification

nucleic acid separation

others

The report also provides a detailed analysis of several leading genomics and proteomics tools market vendors that include Abbott Laboratories, Agilent Technologies, Inc., Bio-Rad Laboratories, Inc., Bruker Corporation, Danaher Corporation, F. Hoffmann-La Roche AG, GE Healthcare, Hitachi High-Tech Corporation, Illumina, Inc., Merck KGaA, Pacific Biosciences of California, Inc., PerkinElmer, Inc., QIAGEN N.V., Shimadzu Corporation, Takara Bio Inc., Thermo Fisher Scientific Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the genomics and proteomics tools

market in South Korea.

To classify and forecast the genomics and proteomics tools market in South Korea based on product, technology.

To identify drivers and challenges for the genomics and proteomics tools market in South Korea.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the genomics and proteomics tools market in South Korea.

To identify and analyze the profile of leading players operating in the genomics and proteomics tools market in South Korea.

Why Choose This Report

Gain a reliable outlook of the genomics and proteomics tools market in South Korea forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY PRODUCT

Instruments
Reagents and consumables
Software

PART 6. MARKET BREAKDOWN BY TECHNOLOGY

PCR
Flow cytometry
Mass spectrometry
NGS sequencing
Nucleic acid purification
Nucleic acid separation
Others

PART 7. KEY COMPANIES

Abbott Laboratories
Agilent Technologies, Inc.
Bio-Rad Laboratories, Inc.
Bruker Corporation
Danaher Corporation
F. Hoffmann-La Roche AG
GE Healthcare
Hitachi High-Tech Corporation
Illumina, Inc.
Merck KGaA
Pacific Biosciences of California, Inc.
PerkinElmer, Inc.
QIAGEN N.V.
Shimadzu Corporation
Takara Bio Inc.
Thermo Fisher Scientific Inc.
