Abstracts

According to the latest research, the global 3d medical imaging market is poised to grow by USD 2.0 billion during 2023-2029, progressing at a CAGR of 6.1% during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global 3d medical imaging market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the component, modality, specialty, deployment mode, end user, and region. The global market for 3d medical imaging can be segmented by component: hardware, services, software. The software segment was the largest contributor to the global 3d medical imaging market in 2022. 3d medical imaging market is further segmented by modality: computed tomography (CT), endoscopy, magnetic resonance imaging (MRI), mammography, nuclear imaging, ultrasound, X-ray, others. According to the research, the ultrasound segment had the largest share in the global 3d medical imaging market. Based on specialty, the 3d medical imaging market is segmented into: cardiology, neurology, obstetrics and gynecology, oncology, orthopedics, others. The oncology segment held the largest revenue share in 2022. On the basis of deployment mode, the 3d medical imaging market also can be divided into: cloud based, on-premises, web-based. Globally, the web-based segment made up the largest share of the 3d medical imaging market. 3d medical imaging market by end user is categorized into: ambulatory and healthcare settings , diagnostic imaging facilities, hospitals, others. The 3d medical imaging market by region can be segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By component: hardware, services, software

By modality: computed tomography (CT), endoscopy, magnetic resonance imaging (MRI), mammography, nuclear imaging, ultrasound, X-ray, others

By specialty: cardiology, neurology, obstetrics and gynecology, oncology, orthopedics, others

By deployment mode: cloud based, on-premises, web-based

By end user: ambulatory and healthcare settings , diagnostic imaging facilities, hospitals, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global 3D Medical Imaging Market, including Acteon Group Ltd., Canon Medical Systems Corporation, Carestream Health, Inc., Dentsply Sirona Inc., Esaote SpA, Fujifilm Corporation, GE Healthcare, Izotropic Corporation, Koninklijke Philips N.V., McKesson Corporation, Medtronic plc, Olympus Corporation, Planmeca Oy, Shimadzu Corporation, Siemens Healthineers AG, Stryker Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global 3d medical imaging market.

To classify and forecast the global 3d medical imaging market based on component, modality, specialty, deployment mode, end user, region.

To identify drivers and challenges for the global 3d medical imaging market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global 3d medical imaging market.

To identify and analyze the profile of leading players operating in the global 3d medical imaging market.

Why Choose This Report

Gain a reliable outlook of the global 3d medical imaging market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
