Abstracts

Due to their versatility and wide range of mechanical and chemical properties, polymers are the most utilized materials for 3D printing. Polymers used for 3D printing covers thermoplastics, thermosets, elastomers, polymers with incorporated fillers, biopolymers, and polymers blended with biological materials. In 2021, the global 3d printing polymer material market stood at USD 869 million. Recording a CAGR of 9.7% from 2022 to 2028, the worth is projected to reach ~USD 1,661 million by 2028, according to a new report by Gen Consulting Company.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global 3d printing polymer material market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the 3d printing polymer material industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the material, application, and region. The global market for 3d printing polymer material can be segmented by material: polyether ether ketone (PEEK), polylactic acid (PLA), polymethyl methacrylate (PMMA), others. The PEEK segment held the largest share of the global 3d printing polymer material market in 2021 and is anticipated to hold its share during the forecast period. 3d printing polymer material market is further segmented by application: dental, hearing aids. Globally, the dental segment made up the largest share of the 3d printing polymer material market. Based on region, the 3d printing polymer material market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW).

By material:

polyether ether ketone (PEEK)

polylactic acid (PLA)

polymethyl methacrylate (PMMA)

others

By application:

dental

hearing aids

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report also provides a detailed analysis of several leading 3d printing polymer material market vendors that include Arkema S.A., BASF SE, Bionic Production GmbH, Evonik Industries AG, Formlabs GmbH, Henkel AG & Co. KGaA, Orion Additive Manufacturing GmbH, Roboze INC, Solvay S.A., Stratasys, Ltd., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global 3d printing polymer material market.

To classify and forecast the global 3d printing polymer material market based on material, application, region.

To identify drivers and challenges for the global 3d printing polymer material market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global 3d printing polymer material market.

To identify and analyze the profile of leading players operating in the global 3d printing polymer material market.

Why Choose This Report

Gain a reliable outlook of the global 3d printing polymer material market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY MATERIAL

Polyether ether ketone (PEEK)
Polylactic acid (PLA)
Polymethyl methacrylate (PMMA)
Others

PART 6. MARKET BREAKDOWN BY APPLICATION

Dental
Hearing aids

PART 7. MARKET BREAKDOWN BY REGION

Asia Pacific
Europe
North America

Rest of the World (RoW)

PART 8. KEY COMPANIES

Arkema S.A.

BASF SE

Bionic Production GmbH

Evonik Industries AG

Formlabs GmbH

Henkel AG & Co. KGaA

Orion Additive Manufacturing GmbH

Roboze INC

Solvay S.A.

Stratasys, Ltd.
