

# Global 3D Printing Software and Services Market 2023-2029

<https://marketpublishers.com/r/G796AC9A4DDEEN.html>

Date: March 2023

Pages: 76

Price: US\$ 3,250.00 (Single User License)

ID: G796AC9A4DDEEN

## Abstracts

3D printing software and services are critical components of the 3D printing industry, enabling individuals and organizations to create and customize an almost infinite range of objects, including customized prosthetics, medical devices, and even buildings. The global 3D printing software and services market is anticipated to increase by USD 40.8 billion till 2029 at an average annual growth of 24.53 percent as per the latest market estimates.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global 3D printing software and services market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, application, end user, and region. The global market for 3D printing software and services can be segmented by type: software, services. The services segment was the largest contributor to the global 3D printing software and services market in 2022. 3D printing software and services market is further segmented by application: functional models/functional prototyping, device covers, artistic items, spare parts/small-run series production, others. According to the research, the functional models/functional prototyping segment had the largest share in the global 3D printing software and services market. Based on end user, the 3D printing software and services market is segmented into: aerospace, consumer, packaging, oil and gas, government and military, education and research, architecture, medical, automotive, others. The aerospace segment held the largest revenue share in 2022. On the basis of

region, the 3D printing software and services market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Globally, Asia-Pacific made up the largest share of the 3D printing software and services market.

The software market is further segmented into 3D designing software, data preparation software, simulation software, machine control software, QA and security. The 3D designing software segment is estimated to account for the largest share of the global 3D printing software and services market. Furthermore, the services market has been categorized into print-on-demand services, printing materials, after sales & maintenance services, others. The print-on-demand services segment held the largest share of the global 3D printing software and services market in 2022 and is anticipated to hold its share during the forecast period.

#### Market Segmentation

By type: software, services

By application: functional models/functional prototyping, device covers, artistic items, spare parts/small-run series production, others

By end user: aerospace, consumer, packaging, oil and gas, government and military, education and research, architecture, medical, automotive, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides analysis of the key companies of the industry and their detailed company profiles including 3D Systems, Inc., Autodesk Inc., Dassault Systèmes SE, Materialise NV, OC Oerlikon Management AG, Proto Labs, Inc., PTC, Inc., Siemens Industry Software Ltd., Stratasys Ltd., Trimble Inc., Xometry Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

#### Scope of the Report

To analyze and forecast the market size of the global 3D printing software and services market.

To classify and forecast the global 3D printing software and services market based on type, application, end user, region.

To identify drivers and challenges for the global 3D printing software and services market.

To examine competitive developments such as mergers & acquisitions, agreements,

collaborations and partnerships, etc., in the global 3D printing software and services market.

To identify and analyze the profile of leading players operating in the global 3D printing software and services market.

#### Why Choose This Report

Gain a reliable outlook of the global 3D printing software and services market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY TYPE**

Software  
Services

### **PART 6. MARKET BREAKDOWN BY APPLICATION**

Functional models/functional prototyping  
Device covers  
Artistic items  
Spare parts/small-run series production  
Others

### **PART 7. MARKET BREAKDOWN BY END USER**

Aerospace  
Consumer  
Packaging

Oil and gas  
Government and military  
Education and research  
Architecture  
Medical  
Automotive  
Others

## **PART 8. MARKET BREAKDOWN BY REGION**

North America  
Europe  
Asia-Pacific  
MEA (Middle East and Africa)  
Latin America

## **PART 9. KEY COMPANIES**

3D Systems, Inc.  
Autodesk Inc.  
Dassault Syst?mes SE  
Materialise NV  
OC Oerlikon Management AG  
Proto Labs, Inc.  
PTC, Inc.  
Siemens Industry Software Ltd.  
Stratasys Ltd.  
Trimble Inc.  
Xometry Inc.

## **DISCLAIMER**

## I would like to order

Product name: Global 3D Printing Software and Services Market 2023-2029

Product link: <https://marketpublishers.com/r/G796AC9A4DDEEN.html>

Price: US\$ 3,250.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
