Abstracts

According to latest analysis by Gen Consulting Company, the global 3d reconstruction technology market is poised to grow by USD 923.0 million during 2022-2028, progressing at a CAGR of 13% during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global 3d reconstruction technology market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the 3d reconstruction technology industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the component, deployment, method, type, application, end user, and region. The global market for 3d reconstruction technology can be segmented by component: software, service, drone, robot. The software segment was the largest contributor to the global 3d reconstruction technology market in 2021. 3d reconstruction technology market is further segmented by deployment: on-premise, cloud. According to the research, the cloud segment had the largest share in the global 3d reconstruction technology market. Based on method, the 3d reconstruction technology market is segmented into: active, passive. The passive segment held the largest revenue share in 2021. On the basis of type, the 3d reconstruction technology market also can be divided into: 3D reconstruction software, based on image and video. Globally, the based on image and video segment made up the largest share of the 3d reconstruction technology market. 3d reconstruction technology market by application is categorized into: cultural heritage and museum, film and game, 3D printing, others. The 3d reconstruction technology market by end user can be segmented into: construction,

residential, commercial, mining, manufacturing, education and research, public safety, agriculture, others. Based on region, the 3d reconstruction technology market is further categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By component: software, service, drone, robot

By deployment: on-premise, cloud

By method: active, passive

By type: 3D reconstruction software, based on image and video

By application: cultural heritage and museum, film and game, 3D printing, others

By end user: construction, residential, commercial, mining, manufacturing, education and research, public safety, agriculture, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global 3D Reconstruction Technology Market, including Agisoft LLC, Autodesk, Inc., Bentley System Corporation, Bentley Systems, Incorporated, Intel corporation, Matterport, Inc., Thermo Fisher Scientific Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global 3d reconstruction technology market.

To classify and forecast the global 3d reconstruction technology market based on component, deployment, method, type, application, end user, region.

To identify drivers and challenges for the global 3d reconstruction technology market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global 3d reconstruction technology market.

To identify and analyze the profile of leading players operating in the global 3d reconstruction technology market.

Why Choose This Report

Gain a reliable outlook of the global 3d reconstruction technology market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY COMPONENT

Software
Service
Drone
Robot

PART 6. MARKET BREAKDOWN BY DEPLOYMENT

On-premise
Cloud

PART 7. MARKET BREAKDOWN BY METHOD

Active
Passive

PART 8. MARKET BREAKDOWN BY TYPE

3D reconstruction software
Based on image and video

PART 9. MARKET BREAKDOWN BY APPLICATION

Cultural heritage and museum
Film and game
3D printing
Others

PART 10. MARKET BREAKDOWN BY END USER

Construction
Residential
Commercial
Mining
Manufacturing
Education and research
Public safety
Agriculture
Others

PART 11. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 12. KEY COMPANIES

Agisoft LLC
Autodesk, Inc.
Bentley System Corporation
Bentley Systems, Incorporated
Intel corporation

Matterport, Inc.

Thermo Fisher Scientific Inc.
