Abstracts

Acute sinusitis is a condition characterized by inflammation and swelling of the mucous membranes that line the sinuses. It often occurs as a result of a viral or bacterial infection, causing the sinus cavities to become blocked, filled with secretions, and unable to properly drain. In cases of severe or recurring sinusitis, further treatment such as allergy testing, immunotherapy, or surgery may be necessary. It is important to manage acute sinusitis to avoid more serious complications such as the spread of infection or the formation of chronic sinusitis. According to the latest estimates, the global acute sinusitis market is set to achieve an incremental growth of USD 1.4 billion, accelerating at a CAGR of almost 7.52% during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global acute sinusitis market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the diagnosis & treatment, end user, and region. The global market for acute sinusitis can be segmented by diagnosis & treatment: treatment, diagnosis. The treatment segment held the largest share of the global acute sinusitis market in 2022 and is anticipated to hold its share during the forecast period. Scope of the Report

To analyze and forecast the market size of the global acute sinusitis market.

To classify and forecast the global acute sinusitis market based on diagnosis & treatment, end user, region.

To identify drivers and challenges for the global acute sinusitis market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global acute sinusitis market.

To identify and analyze the profile of leading players operating in the global acute sinusitis market.

Why Choose This Report

Gain a reliable outlook of the global acute sinusitis market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY DIAGNOSIS & TREATMENT

Treatment
Diagnosis

PART 6. MARKET BREAKDOWN BY END USER

Hospitals & clinics
Research centers
Others

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 8. KEY COMPANIES

Bayer AG
Novartis AG
Sanofi SA
GlaxoSmithKline plc
Abbott Laboratories
Bristol Myers Squibb plc
AstraZeneca plc
Dr. Reddy's Laboratories, Ltd.
