Abstracts

Aluminum withstands good corrosion resistance and mechanical properties as well as high thermal and electrical conductivity, making it a good alloy for die casting. Aluminum die casting alloys are lightweight and possess high dimensional stability for complex part geometries and thin walls. Gen Consulting Company estimates the global aluminum die casting market will total USD 29,547 million by 2028, an average annual growth of 5.4 percent during the forecast period, according to the latest edition of the Global Aluminum Die Casting Market Report.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global aluminum die casting market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the aluminum die casting industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the process, application, and region. The global market for aluminum die casting can be segmented by process: pressure die casting (high pressure die casting, low pressure die casting), others. Aluminum die casting market is further segmented by application: building and construction, consumer durables, energy, industrial, telecommunication, transportation, others. According to the research, the transportation segment had the largest share in the global aluminum die casting market. Based on region, the aluminum die casting market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW).

By process:

pressure die casting (high pressure die casting, low pressure die casting)

others

By application:

building and construction

consumer durables

energy

industrial

telecommunication

transportation

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report also provides analysis of the key companies of the industry and their detailed company profiles including Alcast Technologies Ltd., Beyonics Pte Ltd., BUVO Castings, Consolidated Metco Inc., Dynacast Deutschland GmbH, Endurance Technologies Limited, FAIST Ltd. Holdings, GF Casting Solutions, Gibbs Die Casting Corporation, Madison-Kipp Corporation, Martinrea Honsel Germany GmbH, Minda Corporation Ltd., Ryobi Limited, Shiloh Industries Inc., Walbro LLC, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global aluminum die casting market.

To classify and forecast the global aluminum die casting market based on process, application, region.

To identify drivers and challenges for the global aluminum die casting market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global aluminum die casting market.

To identify and analyze the profile of leading players operating in the global aluminum die casting market.

Why Choose This Report

Gain a reliable outlook of the global aluminum die casting market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
