Abstracts

Ammonium sulfate (AS), also called diammonium sulfate or sulfuric acid diammonium salt, is an inorganic chemical compound with the chemical formula $(\text{NH}_4)_2\text{SO}_4$. It contains 21 percent nitrogen in the form of ammonium ions and 24 percent sulfur as sulfate ions. The purified material takes the form of white granules or crystals. It is commonly used as a fertilizer and as an agricultural spray adjuvant for water soluble pesticides. It is also used in the preparation of other ammonium salts. According to latest analysis by Gen Consulting Company, the global ammonium sulfate market is projected to climb to USD 5,065 million by 2028-end, progressing at a CAGR of 5.8% during 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global ammonium sulfate market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the ammonium sulfate industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the grade, technology, application, and region. The global market for ammonium sulfate can be segmented by grade: large crystal, low grade, standard grade, others. In 2021, the standard grade AS segment made up the largest share of revenue generated by the ammonium sulfate market. Ammonium sulfate market is further segmented by technology: caprolactam, COG, emissions, synthetic, others. Based on application, the ammonium sulfate market is segmented into: fertilizers, food, pharmaceuticals, water treatment, others. On the basis of region, the ammonium sulfate market also can be divided into: Asia Pacific, Europe, North America, Rest of the World (RoW).

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global ammonium sulfate market.

To classify and forecast the global ammonium sulfate market based on grade, technology, application, region.

To identify drivers and challenges for the global ammonium sulfate market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global ammonium sulfate market.

To identify and analyze the profile of leading players operating in the global ammonium sulfate market.

Why Choose This Report

Gain a reliable outlook of the global ammonium sulfate market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
