Abstracts

The global amorphous polyalphaolefin market is anticipated to increase by USD 217 million till 2028 at an average annual growth of 6.6 percent as per the latest report by Gen Consulting Company.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global amorphous polyalphaolefin market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the amorphous polyalphaolefin industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, processing method, application, and region. The global market for amorphous polyalphaolefin can be segmented by product: APAO copolymers, APAO homopolymers, APAO terpolymers. The APAO homopolymers segment held the largest revenue share in 2021. Amorphous polyalphaolefin market is further segmented by processing method: extrusion, pumping, roll coating, slot die coating, spraying. Among these, the spraying segment was accounted for the highest revenue generator in 2021. Based on application, the amorphous polyalphaolefin market is segmented into: automotive and transportation, bookbinding, building and construction, packaging, personal hygiene, wires and cables, woodworking, others. The packaging segment captured the largest share of the market in 2021. On the basis of region, the amorphous polyalphaolefin market also can be divided into: Asia Pacific, Europe, North America, Rest of the World (RoW). According to the research, North America had the largest share in the global amorphous polyalphaolefin market.

By product:

APAO copolymers

APAO homopolymers

APAO terpolymers

By processing method:

extrusion

pumping

roll coating

slot die coating

spraying

By application:

automotive and transportation

bookbinding

building and construction

packaging

personal hygiene

wires and cables

woodworking

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The market research report covers the analysis of key stake holders of the global amorphous polyalphaolefin market. Some of the leading players profiled in the report include Arkema S.A., Eastman Chemical Company, Evonik Industries AG, Henkel AG & Co. KGaA, Huntsman Corporation, Liaoyang Liaohua Qida Chemicals Co., Ltd., REXtac, LLC, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global amorphous polyalphaolefin market.

To classify and forecast the global amorphous polyalphaolefin market based on product, processing method, application, region.

To identify drivers and challenges for the global amorphous polyalphaolefin market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global amorphous

polyalphaolefin market.

To identify and analyze the profile of leading players operating in the global amorphous polyalphaolefin market.

Why Choose This Report

Gain a reliable outlook of the global amorphous polyalphaolefin market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
