Abstracts

The global analytical microscope market is expected to increase by USD 2 billion, at a compound annual growth rate (CAGR) of 6.3% from 2022 to 2028, according to the latest edition of the Global Analytical Microscope Market Report.

This industry report offers market estimates of the global market, followed by a detailed analysis of the product, end user, and region. The global market data on analytical microscope can be segmented by product: optical microscopes, electron microscopes, scanning probe microscopes. In 2021, the optical microscopes segment made up the largest share of revenue generated by the analytical microscope market. Analytical microscope market is further segmented by end user: life sciences, material sciences, nanotechnology, others. The life science segment was the largest contributor to the global analytical microscope market in 2021. Based on region, the analytical microscope market is segmented into: North America, Europe, Asia-Pacific, Rest of the World. Asia-Pacific is estimated to account for the largest share of the global analytical microscope market.

The global analytical microscope market is highly competitive. Some of the leading companies operating in the market are Olympus Corporation, Carl Zeiss AG, Nikon Corporation, Hitachi Ltd., Leica Microsystems GmbH, JEOL Ltd., Thermo Fisher Scientific Inc.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the Global Analytical Microscope Market

Identify segments/areas to invest in over the forecast period in the Global Analytical Microscope Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
