Abstracts

Anticorrosion coatings protect metal components against degradation due to moisture, salt spray, oxidation, or exposure to a variety of environmental or industrial chemicals in a range of industries. The global anticorrosion coatings market market is projected to rise by USD 8 million by 2028, according to a new report by Gen Consulting Company. It is anticipated to expand at a CAGR of 4.4 percent during the forecast period.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global anticorrosion coatings market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the anticorrosion coatings industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product type, technology, application, and region. The global market for anticorrosion coatings can be segmented by product type: acrylic, alkyd, epoxy, polyurethane, zinc, chlorinated rubber and others. According to the research, the epoxy segment had the largest share in the global anticorrosion coatings market. Anticorrosion coatings market is further segmented by technology: solvent-borne, powder coatings, water-borne, others. In 2021, the solvent-borne segment made up the largest share of revenue generated by the anticorrosion coatings market. Based on application, the anticorrosion coatings market is segmented into: automotive & transportation, construction, energy, industrial, oil & gas, others. Among these, the construction segment was accounted for the highest revenue generator in 2021. On the basis of region, the anticorrosion coatings market also can be divided into: Asia Pacific, Europe, North America, Rest of the World (RoW). Asia Pacific captured the largest share of the market in 2021.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global anticorrosion coatings market.

To classify and forecast the global anticorrosion coatings market based on product type, technology, application, region.

To identify drivers and challenges for the global anticorrosion coatings market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global anticorrosion coatings market.

To identify and analyze the profile of leading players operating in the global anticorrosion coatings market.

Why Choose This Report

Gain a reliable outlook of the global anticorrosion coatings market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
