Abstracts

The global automotive electronic brake system market is projected to rise by USD 10.2 billion by 2029, according to the latest market study results. It is anticipated to expand at a CAGR of 5.68 percent during the forecast period. An Automotive Electronic Brake System, or EBS, is a type of brake system used in modern vehicles that uses electronic sensors and control modules to control the brake system. Unlike traditional hydraulic brake systems, which rely on pressurized fluid to engage the brakes, an EBS uses electronic signals to activate the brakes. An Automotive Electronic Brake System, or EBS, is a type of brake system used in modern vehicles that uses electronic sensors and control modules to control the brake system. Unlike traditional hydraulic brake systems, which rely on pressurized fluid to engage the brakes, an EBS uses electronic signals to activate the brakes.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global automotive electronic brake system market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the component, technology, sales channel, vehicle type, and region. The global market for automotive electronic brake system can be segmented by component: sensors, actuators, control units, others. The control units segment is estimated to account for the largest share of the global automotive electronic brake system market. Automotive electronic brake system market is further segmented by technology: brake assistance, autonomous emergency braking, electronic stability

control, anti lock braking system. The anti lock braking system segment held the largest revenue share in 2022. Based on sales channel, the automotive electronic brake system market is segmented into: OEM, aftermarket. Globally, the OEM segment made up the largest share of the automotive electronic brake system market. On the basis of vehicle type, the automotive electronic brake system market also can be divided into: passenger cars, LCV, HCV. The passenger cars segment was the largest contributor to the global automotive electronic brake system market in 2022. Automotive electronic brake system market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By component: sensors, actuators, control units, others

By technology: brake assistance, autonomous emergency braking, electronic stability control, anti lock braking system

By sales channel: OEM, aftermarket

By vehicle type: passenger cars, LCV, HCV

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global automotive electronic brake system market with some of the key players being Advics Co., Ltd., Continental AG, Haldex AB, Knorr Bremse AG, Robert Bosch GmbH, ZF Friedrichshafen AG, Halla Group, Akebono Brake Industry Co., Ltd., KUESTER Holding GmbH, Brembo S.p.A., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global automotive electronic brake system market.

To classify and forecast the global automotive electronic brake system market based on component, technology, sales channel, vehicle type, region.

To identify drivers and challenges for the global automotive electronic brake system market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global automotive electronic brake system market.

To identify and analyze the profile of leading players operating in the global automotive electronic brake system market.

Why Choose This Report

Gain a reliable outlook of the global automotive electronic brake system market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY COMPONENT

Sensors
Actuators
Control units
Others

PART 6. MARKET BREAKDOWN BY TECHNOLOGY

Brake assistance
Autonomous emergency braking
Electronic stability control
Anti lock braking system

PART 7. MARKET BREAKDOWN BY SALES CHANNEL

OEM
Aftermarket

PART 8. MARKET BREAKDOWN BY VEHICLE TYPE

Passenger cars

LCV

HCV

PART 9. MARKET BREAKDOWN BY REGION

North America

Europe

Asia-Pacific

MEA (Middle East and Africa)

Latin America

PART 10. KEY COMPANIES

Advics Co., Ltd.

Continental AG

Haldex AB

Knorr Bremse AG

Robert Bosch GmbH

ZF Friedrichshafen AG

Halla Group

Akebono Brake Industry Co., Ltd.

KUESTER Holding GmbH

Brembo S.p.A.

DISCLAIMER

I would like to order

Product name: Global Automotive Electronic Brake System (EBS) Market 2023-2029

Product link: <https://marketpublishers.com/r/G1441F21A310EN.html>

Price: US\$ 2,850.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
