Abstracts

Bio plasticizers are polymer materials derived from renewable sources include vegetable oil and biomass. Application tests then showed that the bio-based plasticizers can already compete with existing plasticizers in many areas. They are meant for improving flexibility, softness, workability, and volatility of the plasticized materials. According to market research study published by Gen Consulting Company, the global bio plasticizers market stood at around USD 1,848 million in 2021 and is projected to rise to a worth of USD 2,797 million by 2028 end, thereby garnering a CAGR of 6.1% during 2022-2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global bio plasticizers market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the bio plasticizers industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, end user, and region. The global market for bio plasticizers can be segmented by product: castor oil-based plasticizers, citrates, epoxidized soybean oil (ESBO), succinic acid, others. The ESBO segment was the largest contributor to the global bio plasticizers market in 2021. Bio plasticizers market is further segmented by end user: automotive & transportation, building & construction, consumer goods, medical devices, packaging, others. According to the research, the building & construction segment had the largest share in the global bio plasticizers market. Based on region, the bio plasticizers market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW).

By product:

castor oil-based plasticizers

citrates

epoxidized soybean oil (ESBO)

succinic acid

others

By end user:

automotive & transportation

building & construction

consumer goods

medical devices

packaging

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report explores the recent developments and profiles of key vendors in the Global Bio Plasticizers Market, including Avient Corporation, BASF SE, DIC Corporation, Dow

Chemical Company, Emery Oleochemicals, Evonik Industries AG, Hebei Jingu Plasticizer Co., Ltd., Jiangxi East Huge Dragon Chemical Co., Ltd., Jungbunzlauer Suisse AG, Lanxess AG, Matrica S.P.A., OQ Chemicals GmbH, Roquette Freres SA, Solvay S.A., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global bio plasticizers market.

To classify and forecast the global bio plasticizers market based on product, end user, region.

To identify drivers and challenges for the global bio plasticizers market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global bio plasticizers market.

To identify and analyze the profile of leading players operating in the global bio plasticizers market.

Why Choose This Report

Gain a reliable outlook of the global bio plasticizers market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
