## Abstracts

Gen Consulting Company predicts global bioprocess filtration market will grow from USD 1,586 million in 2021 to USD 2,683 million by 2028, achieving a CAGR of 7.8 percent, according to the latest edition of the Global Bioprocess Filtration Market Report.

This industry report offers market estimates of the global market, followed by a detailed analysis of the product, technology, application, end user, and region. The global market data on bioprocess filtration can be segmented by product: consumables, systems. The consumables segment is estimated to account for the largest share of the global bioprocess filtration market. Bioprocess filtration market is further segmented by technology: depth filtration (DF), normal flow filtration (NFF), tangential flow filtration (TFF). The TFF segment held the largest revenue share in 2021. Based on application, the bioprocess filtration market is segmented into: antibodies, blood components, DNA/RNA molecules, proteins, others. Globally, the antibodies segment made up the largest share of the bioprocess filtration market. On the basis of end user, the bioprocess filtration market also can be divided into: academia, process scale, production scale, research and development. The production scale segment was the largest contributor to the global bioprocess filtration market in 2021. Bioprocess filtration market by region is categorized into: Asia Pacific, Europe, North America, Rest of the World (RoW).

The global bioprocess filtration market is highly competitive. Top players covered in Global Bioprocess Filtration Market Study are 3M Company, Asahi Kasei Corporation, Cantel Medical Corporation, Danaher Corporation, GEA Group AG, Meissner Filtration Products Inc., Merck KGaA, Parker Hannifin Corporation, Repligen Corporation, Sartorius AG.

The data-centric report focuses on market trends, status and outlook for segments. With

comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.
