Abstracts

According to the latest estimates, the global body contouring devices market is set to achieve an incremental growth of USD 8.6 billion, accelerating at a CAGR of almost 13.69% during the forecast period 2023-2029. Body contouring devices are non-invasive or minimally invasive medical devices used to reduce fat, tighten skin, and improve body shape without surgery. These devices use different technologies such as radiofrequency, ultrasound, cryolipolysis, and laser to target fat cells and stimulate collagen production. Body contouring devices are used to treat areas of the body such as the abdomen, thighs, buttocks, arms, and chin. They are typically used by individuals who have lost weight or have excess fat in specific areas that are resistant to diet and exercise. Body contouring devices are non-invasive or minimally invasive medical devices used to reduce fat, tighten skin, and improve body shape without surgery. These devices use different technologies such as radiofrequency, ultrasound, cryolipolysis, and laser to target fat cells and stimulate collagen production. Body contouring devices are used to treat areas of the body such as the abdomen, thighs, buttocks, arms, and chin. They are typically used by individuals who have lost weight or have excess fat in specific areas that are resistant to diet and exercise.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global body contouring devices market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the gender, age group, application, end-user, and region. The global market for body contouring devices can be segmented by gender: female, male. The female segment captured the largest share of the market in 2022. Body contouring

devices market is further segmented by age group: under 34, 34–50, above 50. The 34–50 segment held the largest share of the global body contouring devices market in 2022 and is anticipated to hold its share during the forecast period. Based on application, the body contouring devices market is segmented into: non-surgical skin tightening, non-surgical skin resurfacing:, liposuction, cellulite treatment, others. In 2022, the non-surgical skin tightening segment made up the largest share of revenue generated by the body contouring devices market. On the basis of end-user, the body contouring devices market also can be divided into: hospitals and skin clinics, medical SPAS and beauty centers, others. Among these, the medical SPAS and beauty centers segment was accounted for the highest revenue generator in 2022. Body contouring devices market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By gender: female, male

By age group: under 34, 34–50, above 50

By application: non-surgical skin tightening, non-surgical skin resurfacing:, liposuction, cellulite treatment, others

By end-user: hospitals and skin clinics, medical SPAS and beauty centers, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading body contouring devices market vendors that include AbbVie Inc, Cutera, Inc., Bausch Health Companies Inc., Hologic Inc., Shanghai Fosun Pharmaceutical Co., Ltd., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global body contouring devices market.

To classify and forecast the global body contouring devices market based on gender, age group, application, end-user, region.

To identify drivers and challenges for the global body contouring devices market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global body contouring devices market.

To identify and analyze the profile of leading players operating in the global body contouring devices market.

Why Choose This Report

Gain a reliable outlook of the global body contouring devices market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY GENDER

Female
Male

PART 6. MARKET BREAKDOWN BY AGE GROUP

Under
34–50
Above

PART 7. MARKET BREAKDOWN BY APPLICATION

Non-surgical skin tightening
Non-surgical skin resurfacing:
Liposuction
Cellulite treatment
Others

PART 8. MARKET BREAKDOWN BY END-USER

Hospitals and skin clinics
Medical SPAS and beauty centers
Others

PART 9. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 10. KEY COMPANIES

AbbVie Inc
Cutera, Inc.
Bausch Health Companies Inc.
Hologic Inc.
Shanghai Fosun Pharmaceutical Co., Ltd.
