Abstracts

Breast cancer screening tests are necessary because breast cancer is a common type of cancer that affects women all over the world. Early detection and treatment of breast cancer can significantly improve a woman's chances of survival and reduce the need for more aggressive treatments. Breast cancer screening tests are recommended for women who are at average risk of developing breast cancer, as well as those who are at high risk due to factors such as family history, genetic mutations, or previous breast cancer diagnoses. According to the latest estimates, the global breast cancer screening test market is set to achieve an incremental growth of USD 1.6 billion, accelerating at a CAGR of almost 8.04% during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global breast cancer screening test market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the test, and region. The global market for breast cancer screening test can be segmented by test: genomic tests, imaging test. In 2022, the imaging test segment made up the largest share of revenue generated by the breast cancer screening test market. Breast cancer screening test market is further segmented by region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America was the largest contributor to the global breast cancer screening test market in 2022.

Scope of the Report

To analyze and forecast the market size of the global breast cancer screening test market.

To classify and forecast the global breast cancer screening test market based on test, region.

To identify drivers and challenges for the global breast cancer screening test market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global breast cancer screening test market.

To identify and analyze the profile of leading players operating in the global breast cancer screening test market.

Why Choose This Report

Gain a reliable outlook of the global breast cancer screening test market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TEST

Genomic tests
Imaging test

PART 6. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 7. KEY COMPANIES

Carestream Health Inc.
F Hoffmann-LA Roche Ltd.
Fujifilm Holdings Corporation

GE Healthcare
Hologic, Inc.
Koninklijke Philips N.V.
Myriad Genetics Inc.
Nanostring Technologies Inc.
Quest Diagnostics Incorporated
Siemens Healthineers AG
