Abstracts

CNC cutting is a connection base cutting procedure and manufactures precise parts with exact positioning and velocity. The main benefit of CNC machines is their versatility – they can be used to cut a wide range of materials, including wood, metal, and plastic. The global cnc cutting machines market is anticipated to reach valuation of ~USD 6,583 million by 2028, representing a CAGR of 5.9% from 2022 to 2028 as per the latest report by Gen Consulting Company.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global cnc cutting machines market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the cnc cutting machines industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, product, application, end user, and region. The global market for cnc cutting machines can be segmented by type: movable gantry cutting machine, stationary gantry cutting machine. The stationary gantry cutting machine segment held the largest revenue share in 2021. Cnc cutting machines market is further segmented by product: laser, plasma, waterjet, router. Among these, the router segment was accounted for the highest revenue generator in 2021. Based on application, the cnc cutting machines market is segmented into: metal working, stone working, wood working, others. The metal working segment captured the largest share of the market in 2021. On the basis of end user, the cnc cutting machines market also can be divided into: aerospace & defense, automotive, building & construction, consumer electronics, energy & power, furniture, medical, transportation, others. Cnc cutting machines market by region is categorized into: North America, Asia Pacific, Europe, Rest of the World (ROW).

By type:

movable gantry cutting machine

stationary gantry cutting machine

By product:

laser

plasma

waterjet

router

By application:

metal working

stone working

wood working

others

By end user:

aerospace & defense

automotive

building & construction

consumer electronics

energy & power

furniture

medical

transportation

others

By region:

North America

Asia Pacific

Europe

Rest of the World (ROW)

The report has also analysed the competitive landscape of the global cnc cutting machines market with some of the key players being XYZ Automation Inc., Carbide 3D LLC, ESAB Corporate, HOMAG Group AG, KOMO Machine, Inc., MultiCam Inc., Prima Industrie S.p.A., The SHODA Company, Thermwood Corporation, TRUMPF SE + Co. KG., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global cnc cutting machines market.

To classify and forecast the global cnc cutting machines market based on type, product, application, end user, region.

To identify drivers and challenges for the global cnc cutting machines market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global cnc cutting machines market.

To identify and analyze the profile of leading players operating in the global cnc cutting machines market.

Why Choose This Report

Gain a reliable outlook of the global cnc cutting machines market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY TYPE

Movable gantry cutting machine
Stationary gantry cutting machine

PART 6. MARKET BREAKDOWN BY PRODUCT

Laser
Plasma
Waterjet
Router

PART 7. MARKET BREAKDOWN BY APPLICATION

Metal working
Stone working
Wood working

Others

PART 8. MARKET BREAKDOWN BY END USER

Aerospace & defense
Automotive
Building & construction
Consumer electronics
Energy & power
Furniture
Medical
Transportation
Others

PART 9. MARKET BREAKDOWN BY REGION

North America
Asia Pacific
Europe
Rest of the World (ROW)

PART 10. KEY COMPANIES

XYZ Automation Inc.
Carbide 3D LLC
ESAB Corporate
HOMAG Group AG
KOMO Machine, Inc.
MultiCam Inc.
Prima Industrie S.p.A.
The SHODA Company
Thermwood Corporation
TRUMPF SE + Co. KG.
