## Abstracts

Construction additives are materials that are added to concrete, mortar, or other construction materials to improve their properties or performance. These additives can include chemical compounds, fibers, and other materials, and are used to enhance the strength, durability, workability, and other characteristics of the construction materials. The global construction additives market size is projected to grow by USD 13.9 billion from 2023 to 2029, registering a CAGR of 7.65 percent, according to the latest market data. Construction additives are used in a wide range of construction applications, including buildings, bridges, roads, and other infrastructure projects. They are designed to improve the performance and durability of construction materials, and to meet the specific needs of different construction applications. Construction additives are used in a wide range of construction applications, including buildings, bridges, roads, and other infrastructure projects. They are designed to improve the performance and durability of construction materials, and to meet the specific needs of different construction applications.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global construction additives market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, application, and region. The global market for construction additives can be segmented by type: chemical, mineral, fiber. The chemical segment is estimated to account for the largest share of the global construction additives market. Construction additives market is further segmented by application: residential, commercial, infrastructure, others. The commercial segment held the largest

revenue share in 2022. Based on region, the construction additives market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Globally, Asia-Pacific made up the largest share of the construction additives market.

The chemical market is further segmented into plasticizers, air-entraining, waterproofing, retarding agent, others. The plasticizers segment held the largest share of the global construction additives market in 2022 and is anticipated to hold its share during the forecast period.

### Market Segmentation

By type: chemical, mineral, fiber

By application: residential, commercial, infrastructure, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global construction additives market with some of the key players being BASF SE, Chryso S.A.S., Cico Group, Dow Inc., Evonik Industries AG, Fosroc International Ltd., Mapei S.p.A, RPM International Inc, Sika AG, W. R. Grace and Company, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

### Scope of the Report

To analyze and forecast the market size of the global construction additives market.

To classify and forecast the global construction additives market based on type, application, region.

To identify drivers and challenges for the global construction additives market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global construction additives market.

To identify and analyze the profile of leading players operating in the global construction additives market.

### Why Choose This Report

Gain a reliable outlook of the global construction additives market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.  
Strategy consulting and research support for three months.  
Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY TYPE**

Chemical  
Mineral  
Fiber

### **PART 6. MARKET BREAKDOWN BY APPLICATION**

Residential  
Commercial  
Infrastructure  
Others

### **PART 7. MARKET BREAKDOWN BY REGION**

North America  
Europe  
Asia-Pacific

MEA (Middle East and Africa)  
Latin America

## **PART 8. KEY COMPANIES**

BASF SE  
Chryso S.A.S.  
Cico Group  
Dow Inc.  
Evonik Industries AG  
Fosroc International Ltd.  
Mapei S.p.A  
RPM International Inc  
Sika AG  
W. R. Grace and Company

## **DISCLAIMER**

## I would like to order

Product name: Global Construction Additives Market 2023-2029

Product link: <https://marketpublishers.com/r/G13DA58122BBEN.html>

Price: US\$ 2,750.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
