Abstracts

According to Gen Consulting Company, the global construction composites market is set to achieve an incremental growth of USD 7.7 billion, accelerating at a CAGR of almost 5.7% during the forecast period 2022-2028.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global construction composites market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the construction composites industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the resin type, fiber type, end user, and region. The global market for construction composites can be segmented by resin type: polyester resin, vinyl ester, polyethylene, polypropylene, epoxy resin, others. Among these, the polyester resin segment was accounted for the highest revenue generator in 2021. Construction composites market is further segmented by fiber type: carbon fiber, glass fiber, natural fiber, others. The glass fiber segment is estimated to account for the largest share of the global construction composites market. Based on end user, the construction composites market is segmented into: industrial, commercial, residential, others. The residential segment held the largest share of the global construction composites market in 2021 and is anticipated to hold its share during the forecast period. On the basis of region, the construction composites market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. In 2021, North America made up the largest share of revenue generated by the construction composites market.

Market Segmentation

By resin type: polyester resin, vinyl ester, polyethylene, polypropylene, epoxy resin, others

By fiber type: carbon fiber, glass fiber, natural fiber, others

By end user: industrial, commercial, residential, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The market research report covers the analysis of key stake holders of the global construction composites market. Some of the leading players profiled in the report include Aegion Corporation, Exel Composites Oyj, Gurit Holding AG, Hexcel Corporation, Kordsa Teknik Tekstil A.S., Mitsubishi Chemical Corporation, Nippon Electric Glass Co., Ltd., Owens Corning, SGL Carbon SE, Teijin Limited, Toray Industries Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global construction composites market.

To classify and forecast the global construction composites market based on resin type, fiber type, end user, region.

To identify drivers and challenges for the global construction composites market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global construction composites market.

To identify and analyze the profile of leading players operating in the global construction composites market.

Why Choose This Report

Gain a reliable outlook of the global construction composites market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY RESIN TYPE

Polyester resin
Vinyl ester
Polyethylene
Polypropylene
Epoxy resin
Others

PART 6. MARKET BREAKDOWN BY FIBER TYPE

Carbon fiber
Glass fiber
Natural fiber
Others

PART 7. MARKET BREAKDOWN BY END USER

Industrial
Commercial
Residential
Others

PART 8. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 9. KEY COMPANIES

Aegion Corporation
Exel Composites Oyj
Gurit Holding AG
Hexcel Corporation
Kordsa Teknik Tekstil A.S.
Mitsubishi Chemical Corporation
Nippon Electric Glass Co., Ltd.
Owens Corning
SGL Carbon SE
Teijin Limited
Toray Industries Inc.
