Abstracts

The global cots components for satellites market was valued at USD 2,044 million in 2021 to USD 3,776 million by 2028, progressing at a CAGR of 1.4% from 2022 to 2028, according to Gen Consulting Company.

This industry report offers market estimates of the global market, followed by a detailed analysis of the subsystem, mass class, and region. The global market data on cots components for satellites can be segmented by subsystem: attitude determination and control subsystem, command and data handling system, communication subsystem, electrical and power subsystem, payload, propulsion control subsystem, thermal control subsystem, others. In 2021, the attitude determination and control subsystem segment made up the largest share of revenue generated by the cots components for satellites market. Cots components for satellites market is further segmented by mass class: 0-500kg, 501-1,000kg, 1,001kg and above. Based on region, the cots components for satellites market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW).

The global cots components for satellites market is highly competitive. The leading players in the cots components for satellites market include Amplified Design LLC, Analog Devices Inc., BAE Systems plc, Cobham Limited, Curtiss-Wright Corporation, Data Device Corporation (DDC), Exxelia SAS, GSI Technology Inc., Honeywell International Inc., Infineon Technologies AG, Microchip Technology Inc., Micropac Industries Inc., STMicroelectronics N.V., Texas Instruments Incorporated, Xilinx Inc.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the Global COTS Components for Satellites Market

Identify segments/areas to invest in over the forecast period in the Global COTS Components for Satellites Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.
