Abstracts

Data center servers are designed for scalability, reliability, and high availability. They are typically built with high-performance hardware components, such as powerful processors, large amounts of memory, and fast storage drives, to support complex workloads and data processing demands. In addition to hardware, data center servers are also typically designed with specialized software and management tools to optimize performance and enable efficient resource allocation. These tools may include virtualization software, which allows multiple virtual servers to run on a single physical server, as well as automation and orchestration tools to streamline IT operations. According to the latest research, the global data center server market is poised to grow by USD 26.5 billion during 2023-2029, progressing at a CAGR of 4.09% during the forecast period.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global data center server market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the servers, end user, and region. The global market for data center server can be segmented by servers: rack servers, blade servers, micro servers. Among these, the rack servers segment was accounted for the highest revenue generator in 2022. Data center server market is further segmented by end user: financial, government, cloud, IT & telecom, others. The cloud, IT & telecom segment is estimated to account for the largest share of the global data center server market. Based on region, the data center server market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America held

the largest share of the global data center server market in 2022 and is anticipated to hold its share during the forecast period.

Market Segmentation

By servers: rack servers, blade servers, micro servers

By end user: financial, government, cloud, IT & telecom, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global data center server market with some of the key players being Hewlett Packard Enterprise Company, Dell Technologies Inc., Inspur Electronic Information Industry Co., Ltd., Lenovo Group Limited, Advanced Micro Devices Inc (AMD), ATOS SE, Cisco Systems, Inc., Intel Corporation, Oracle Corporation, NEC Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global data center server market.

To classify and forecast the global data center server market based on servers, end user, region.

To identify drivers and challenges for the global data center server market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global data center server market.

To identify and analyze the profile of leading players operating in the global data center server market.

Why Choose This Report

Gain a reliable outlook of the global data center server market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY SERVERS

Rack servers
Blade servers
Micro servers

PART 6. MARKET BREAKDOWN BY END USER

Financial
Government
Cloud, IT & telecom
Others

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific

MEA (Middle East and Africa)
Latin America

PART 8. KEY COMPANIES

Hewlett Packard Enterprise Company
Dell Technologies Inc.
Inspur Electronic Information Industry Co., Ltd.
Lenovo Group Limited
Advanced Micro Devices Inc (AMD)
ATOS SE
Cisco Systems, Inc.
Intel Corporation
Oracle Corporation
NEC Corporation

DISCLAIMER

I would like to order

Product name: Global Data Center Server Market 2023-2029

Product link: <https://marketpublishers.com/r/G73FFB67CCF9EN.html>

Price: US\$ 2,650.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
