Abstracts

Dental handpieces are handheld instruments used by dentists and dental professionals for a variety of procedures in dental practices. The global dental handpieces market is anticipated to increase by USD 0.6 billion till 2029 at an average annual growth of 4.73 percent as per the latest market estimates. The rising incidence of dental diseases such as cavities, gum diseases, and periodontitis is expected to drive the demand for dental handpieces. Advances in dental technology, such as the development of electric handpieces and fiber-optic handpieces, are driving the dental handpieces market as they offer improved performance, greater precision, and more efficient procedures. In addition, the aging population is more prone to dental problems, and this demographic group is growing worldwide. This creates a significant market for dental handpieces. The rising incidence of dental diseases such as cavities, gum diseases, and periodontitis is expected to drive the demand for dental handpieces. Advances in dental technology, such as the development of electric handpieces and fiber-optic handpieces, are driving the dental handpieces market as they offer improved performance, greater precision, and more efficient procedures. In addition, the aging population is more prone to dental problems, and this demographic group is growing worldwide. This creates a significant market for dental handpieces.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global dental handpieces market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, speed, end user, and region. The global market for dental handpieces can be segmented by product: hybrid air-electric handpieces, air-

driven handpieces, electric handpieces. The air-driven handpieces segment is estimated to account for the largest share of the global dental handpieces market. Dental handpieces market is further segmented by speed: high-speed, low-speed. The high-speed segment held the largest revenue share in 2022. Based on end user, the dental handpieces market is segmented into: dental clinics, hospitals, ambulatory surgical centers, others. Globally, the dental clinics segment made up the largest share of the dental handpieces market. On the basis of region, the dental handpieces market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America was the largest contributor to the global dental handpieces market in 2022.

Market Segmentation

By product: hybrid air-electric handpieces, air-driven handpieces, electric handpieces

By speed: high-speed, low-speed

By end user: dental clinics, hospitals, ambulatory surgical centers, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The market research report covers the analysis of key stake holders of the global dental handpieces market. Some of the leading players profiled in the report include Nakanishi Inc., Dentsply Sirona Inc., Dentatus AB, KaVo Dental GmbH, A-dec, Inc., Being Foshan Medical Equipment Co., Ltd., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.
