Abstracts

Disposable contact lenses are a popular type of contact lens that can be worn once and then disposed of after use. They are typically made from a combination of water-holding polymers, including hydrogel or silicone hydrogel, and are designed to be worn for a set period of time before being discarded. Disposable contact lenses come in different types, including daily disposables, weekly disposables, and monthly disposables. Daily disposable lenses are meant to be worn for a single day and then thrown away. Weekly and monthly disposables can be worn for longer periods of time before being discarded, but require proper cleaning and storage between uses. The global disposable contact lens market size is projected to grow by USD 5.3 billion from 2023 to 2029, registering a CAGR of 8.9 percent, according to the latest market data.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global disposable contact lens market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the material, usage, design, application, distribution, and region. The global market for disposable contact lens can be segmented by material: silicone hydrogel, hydrogel. In 2022, the silicone hydrogel segment made up the largest share of revenue generated by the disposable contact lens market. Disposable contact lens market is further segmented by usage: daily disposable, frequent replacement. The daily disposable segment was the largest contributor to the global disposable contact lens market in 2022. Based on design, the disposable contact lens market is segmented into: spherical contact lenses, toric contact lenses, multifocal disposable contact lenses. The spherical contact lenses segment is estimated to account for the largest share of

the global disposable contact lens market. On the basis of application, the disposable contact lens market also can be divided into: corrective contact lenses, therapeutic contact lenses, cosmetic contact lenses. The corrective contact lenses segment held the largest share of the global disposable contact lens market in 2022 and is anticipated to hold its share during the forecast period. Disposable contact lens market by distribution is categorized into: retail stores, hospitals & eye clinics, online stores, others. The disposable contact lens market by region can be segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By material: silicone hydrogel, hydrogel

By usage: daily disposable, frequent replacement

By design: spherical contact lenses, toric contact lenses, multifocal disposable contact lenses

By application: corrective contact lenses, therapeutic contact lenses, cosmetic contact lenses

By distribution: retail stores, hospitals & eye clinics, online stores, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global Disposable Contact Lens Market, including Johnson & Johnson (J&J), Alcon Inc., Bausch & Lomb Incorporated, Cooper Cos Inc., BenQ Materials Corporation, Ginko International Co., Ltd., Hoya Corporation, INTEROJO Co., Ltd., Menicon Co., Ltd., Sensimed S.A., St. Shine Optical Co., Ltd., CARL ZEISS AG, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global disposable contact lens market.

To classify and forecast the global disposable contact lens market based on material, usage, design, application, distribution, region.

To identify drivers and challenges for the global disposable contact lens market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global disposable contact lens market.

To identify and analyze the profile of leading players operating in the global disposable contact lens market.

Why Choose This Report

Gain a reliable outlook of the global disposable contact lens market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY MATERIAL

Silicone hydrogel
Hydrogel

PART 6. MARKET BREAKDOWN BY USAGE

Daily disposable
Frequent replacement

PART 7. MARKET BREAKDOWN BY DESIGN

Spherical contact lenses
Toric contact lenses
Multifocal disposable contact lenses

PART 8. MARKET BREAKDOWN BY APPLICATION

Corrective contact lenses
Therapeutic contact lenses
Cosmetic contact lenses

PART 9. MARKET BREAKDOWN BY DISTRIBUTION

Retail stores
Hospitals & eye clinics
Online stores
Others

PART 10. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 11. KEY COMPANIES

Johnson & Johnson (J&J)
Alcon Inc.
Bausch & Lomb Incorporated
Cooper Cos Inc.
BenQ Materials Corporation
Ginko International Co., Ltd.
Hoya Corporation
INTEROJO Co., Ltd.
Menicon Co., Ltd.
Sensimed S.A.
St. Shine Optical Co., Ltd.
CARL ZEISS AG
