Abstracts

The global district heating market is anticipated to increase by USD 5 billion till 2028 at an average annual growth of 1.6 percent as per the latest report by Gen Consulting Company.

This industry report offers market estimates of the global market, followed by a detailed analysis of the heat type, type, end user, and region. The global market data on district heating can be segmented by heat type: coal, natural gas, renewable, others. The natural gas segment captured the largest share of the market in 2021. District heating market is further segmented by type: boiler plant, combined heat and power (CHP). The combined heat and power (CHP) segment held the largest share of the global district heating market in 2021 and is anticipated to hold its share during the forecast period. Based on end user, the district heating market is segmented into: residential, non-residential. In 2021, the residential segment made up the largest share of revenue generated by the district heating market. On the basis of region, the district heating market also can be divided into: North America, Europe, Asia-Pacific, Rest of the World. Among these, Asia-Pacific was accounted for the highest revenue generator in 2021.

The global district heating market is highly competitive. The competitive landscape of the industry has also been examined along with the profiles of the key players Alfa Laval AB, Danfoss A/S, Engie S.A., Keppel Corporation, NRG Energy Inc., Ramboll Group A/S, Shinryo Corporation, SP Group, Statkraft AS, Vattenfall AB.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the Global District Heating Market

Identify segments/areas to invest in over the forecast period in the Global District Heating Market

Understand the competitive environment, the market's leading players

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. SUMMARY

PART 2. INTRODUCTION

Study period
Geographical scope
Market segmentation

PART 3. DISTRICT HEATING MARKET OVERVIEW

PART 4. MARKET BREAKDOWN BY HEAT TYPE

Coal
Natural gas
Renewable
Others

PART 5. MARKET BREAKDOWN BY TYPE

Boiler plant
Combined heat and power (CHP)

PART 6. MARKET BREAKDOWN BY END USER

Residential
Non-residential

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
Rest of the World

PART 8. KEY COMPANIES

Alfa Laval AB

Danfoss A/S
Engie S.A.
Keppel Corporation
NRG Energy, Inc.
Ramboll Group A/S
Shinryo Corporation
SP Group
Statkraft AS
Vattenfall AB
