Abstracts

DNA extraction kits are sets of reagents and materials used in laboratories to extract and purify DNA from various sample types, including cells, tissues, blood, and saliva. They streamline the DNA extraction process and ensure high-quality DNA for downstream applications such as PCR, sequencing, and genotyping. According to the latest market study results, the global DNA extraction kits market stood at around USD 1,484.0 million in 2022 and is projected to rise to a worth of USD 2,497.5 million by 2029 end, thereby garnering a CAGR of 7.72% during 2023-2029. The DNA extraction kit market is expected to grow in the coming years due to the increasing demand for molecular diagnostics, growing genomic research, and the automation and optimization of laboratory workflows. The DNA extraction kit market is expected to grow in the coming years due to the increasing demand for molecular diagnostics, growing genomic research, and the automation and optimization of laboratory workflows.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global DNA extraction kits market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, sample type, application, end user, and region. The global market for DNA extraction kits can be segmented by product: cell-free DNA, genomic DNA, others. The cell-free DNA segment held the largest revenue share in 2022. DNA extraction kits market is further segmented by sample type: blood/tissue & FFPE, cells, others. Among these, the blood/tissue & FFPE segment was accounted for the highest revenue generator in 2022. Based on application, the DNA extraction kits market is segmented into: PCR, sequencing, cloning, others. The PCR segment

captured the largest share of the market in 2022. On the basis of end user, the DNA extraction kits market also can be divided into: healthcare facilities, research institutes, pharma companies, others. According to the research, the healthcare facilities segment had the largest share in the global DNA extraction kits market. DNA extraction kits market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By product: cell-free DNA, genomic DNA, others

By sample type: blood/tissue & FFPE, cells, others

By application: PCR, sequencing, cloning, others

By end user: healthcare facilities, research institutes, pharma companies, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report has also analysed the competitive landscape of the global DNA extraction kits market with some of the key players being Bio-Rad Laboratories, Inc., Roche Holding AG, Promega Corporation, Qiagen N.V., Agilent Technologies, Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global DNA extraction kits market.

To classify and forecast the global DNA extraction kits market based on product, sample type, application, end user, region.

To identify drivers and challenges for the global DNA extraction kits market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global DNA extraction kits market.

To identify and analyze the profile of leading players operating in the global DNA extraction kits market.

Why Choose This Report

Gain a reliable outlook of the global DNA extraction kits market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY PRODUCT

Cell-free DNA
Genomic DNA
Others

PART 6. MARKET BREAKDOWN BY SAMPLE TYPE

Blood/tissue & FFPE
Cells
Others

PART 7. MARKET BREAKDOWN BY APPLICATION

PCR
Sequencing
Cloning
Others

PART 8. MARKET BREAKDOWN BY END USER

Healthcare facilities
Research institutes
Pharma companies
Others

PART 9. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 10. KEY COMPANIES

Bio-Rad Laboratories, Inc.
Roche Holding AG
Promega Corporation
Qiagen N.V.
Agilent Technologies, Inc.

DISCLAIMER

I would like to order

Product name: Global DNA Extraction Kits Market 2023-2029

Product link: <https://marketpublishers.com/r/G9A0A783EDC4EN.html>

Price: US\$ 2,850.00 (Single User License / Electronic Delivery)
