Abstracts

Dry X-Ray film is cost-effective and environmentally friendly as it eliminates the need for chemical disposal. It possesses features such as outstanding grayscale and contrast, high resolution, and high density, making it suitable for digital radiography imaging. According to the latest estimates, the global dry x-ray film market size is expected to increase from USD 908.3 million in 2022 to USD 1,015.0 million by 2029, garnering a CAGR of 1.6% over the evaluated period. With the growing need for diagnostic imaging in the healthcare industry, there is an increasing demand for X-ray diagnosis procedures. Dry X-Ray films play a crucial role in this regard, as they provide high-quality imaging and are widely used in hospitals and clinics.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global dry x-ray film market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

Market Segmentation

Type: blue film base, clear film base

Application: dry laser imager, dry thermal imager

End user: diagnostic centers, hospitals and clinics

Region: Asia-Pacific, Europe, North America, Middle East and Africa (MEA), South America

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, application, end user, and region. The global market for dry x-ray film can be segmented by type: blue film base, clear film base. Among these, the blue film base segment was accounted for the highest revenue generator in 2022. Dry x-ray film market is further segmented by application: dry laser imager, dry

thermal imager. The dry laser imager segment is estimated to account for the largest share of the global dry x-ray film market. Based on end user, the dry x-ray film market is segmented into: diagnostic centers, hospitals and clinics. The hospitals and clinics segment held the largest share of the global dry x-ray film market in 2022 and is anticipated to hold its share during the forecast period. On the basis of region, the dry x-ray film market also can be divided into: Asia-Pacific, Europe, North America, Middle East and Africa (MEA), South America. In 2022, Asia-Pacific made up the largest share of revenue generated by the dry x-ray film market.

Major Companies and Competitive Landscape

The market research report covers the analysis of key stake holders of the global dry x-ray film market. Some of the leading players profiled in the report include Agfa-Gevaert N.V., Carestream Health Inc., China Lucky Group Co., Ltd., FUJIFILM Holdings Corporation, Konica Minolta Inc., Sony Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global dry x-ray film market.

To classify and forecast the global dry x-ray film market based on type, application, end user, region.

To identify drivers and challenges for the global dry x-ray film market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global dry x-ray film market.

To identify and analyze the profile of leading players operating in the global dry x-ray film market.

Why Choose This Report

Gain a reliable outlook of the global dry x-ray film market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

- 1.1 Description
- 1.2 Objectives of The Study
- 1.3 Market Segment
- 1.4 Years Considered for The Report
- 1.5 Currency
- 1.6 Key Target Audience

PART 2. RESEARCH METHODOLOGY

- 2.1 Primary Research
- 2.2 Secondary Research

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

- 4.1 Introduction
- 4.2 Drivers
- 4.3 Restraints

PART 5. GLOBAL DRY X-RAY FILM MARKET BY TYPE

- 5.1 Blue film base
- 5.2 Clear film base

PART 6. GLOBAL DRY X-RAY FILM MARKET BY APPLICATION

- 6.1 Dry laser imager
- 6.2 Dry thermal imager

PART 7. GLOBAL DRY X-RAY FILM MARKET BY END USER

- 7.1 Diagnostic centers
- 7.2 Hospitals and clinics

PART 8. GLOBAL DRY X-RAY FILM MARKET BY REGION

- 8.1 Asia-Pacific
- 8.2 Europe
- 8.3 North America
- 8.4 Middle East and Africa (MEA)
- 8.5 South America

PART 9. COMPANY PROFILES

- 9.1 Agfa-Gevaert N.V.
- 9.2 Carestream Health Inc.
- 9.3 China Lucky Group Co., Ltd.
- 9.4 FUJIFILM Holdings Corporation
- 9.5 Konica Minolta Inc.
- 9.6 Sony Corporation
