Abstracts

Gen Consulting Company predicts the global early warning radar market will grow from USD 1,157 million in 2021 to USD 1,717 million by 2028, achieving a compound annual growth rate (CAGR) of 5.8 percent.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global early warning radar market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the early warning radar industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, dimension, range, application, end user, and region. The global market for early warning radar can be segmented by product: air interception radars, bombing radars, navigation radars, others. Early warning radar market is further segmented by dimension: 2D radar, 3D radar, 4D radar. Based on range, the early warning radar market is segmented into: short range, medium range, long range. On the basis of application, the early warning radar market also can be divided into: attack, collision avoidance, defense, surveillance, others. Early warning radar market by end user is categorized into: air force, army, navy. The early warning radar market by region can be segmented into: North America, Asia Pacific, Europe, Rest of the World (ROW).

By product:

air interception radars

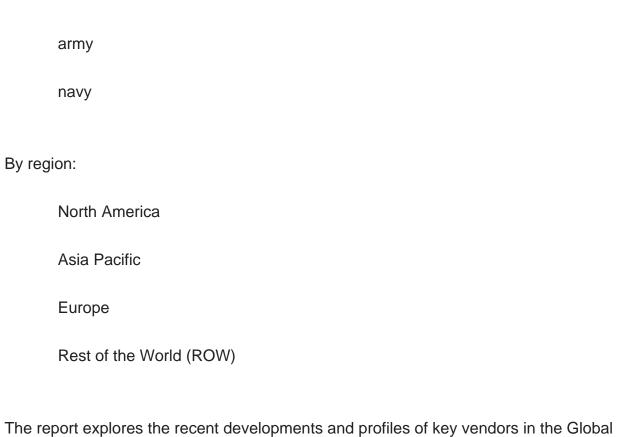

bombing radars

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global early warning radar market.

To classify and forecast the global early warning radar market based on product, dimension, range, application, end user, region.

To identify drivers and challenges for the global early warning radar market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global early warning radar market.

To identify and analyze the profile of leading players operating in the global early warning radar market.

Why Choose This Report

Gain a reliable outlook of the global early warning radar market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction

Drivers

Restraints

Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY PRODUCT

Air interception radars
Bombing radars
Navigation radars
Others

PART 6. MARKET BREAKDOWN BY DIMENSION

2D radar

3D radar

4D radar

PART 7. MARKET BREAKDOWN BY RANGE

Short range

Medium range

Long range

PART 8. MARKET BREAKDOWN BY APPLICATION

Attack

Collision avoidance

Defense

Surveillance

Others

PART 9. MARKET BREAKDOWN BY END USER

Air force

Army

Navy

PART 10. MARKET BREAKDOWN BY REGION

North America

Asia Pacific

Europe

Rest of the World (ROW)

PART 11. KEY COMPANIES

BAE Systems plc

Hensoldt AG

Israel Aerospace Industries Ltd.

Leonardo S.p.A.

Lockheed Martin Corporation

Northrop Grumman Corporation

Raytheon Technologies Corporation

Saab AB

Thales SA

The Boeing Company
