Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global edge computing market.

To classify and forecast the global edge computing market based on component, industry vertical, end user, region.

To identify drivers and challenges for the global edge computing market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global edge computing market.

To identify and analyze the profile of leading players operating in the global edge computing market.

Why Choose This Report

Gain a reliable outlook of the global edge computing market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.
