Abstracts

Electric bus charging infrastructure refers to the network of charging stations and equipment that is used to recharge electric buses. Electric buses are becoming increasingly popular as a cleaner and more sustainable alternative to traditional diesel buses, and require a reliable and efficient charging infrastructure to support their operation. According to the latest estimates, the global electric bus charging infrastructure market is set to achieve an incremental growth of USD 246.0 million, accelerating at a CAGR of almost 26.79% during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global electric bus charging infrastructure market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the charger type, charging method, and region. The global market for electric bus charging infrastructure can be segmented by charger type: DC charger, pantograph. In 2022, the pantograph segment made up the largest share of revenue generated by the electric bus charging infrastructure market. Electric bus charging infrastructure market is further segmented by charging method: fast charging, slow charging. The slow charging segment was the largest contributor to the global electric bus charging infrastructure market in 2022. Based on region, the electric bus charging infrastructure market is segmented into: North America, Europe, Asia-Pacific, Rest of the World (RoW). Asia-Pacific is estimated to account for the largest share of the global electric bus charging infrastructure market.

Market Segmentation

By charger type: DC charger, pantograph

By charging method: fast charging, slow charging

By region: North America, Europe, Asia-Pacific, Rest of the World (RoW)

The report also provides analysis of the key companies of the industry and their detailed company profiles including ABB Ltd., Siemens AG, Schunk Group, Bombardier Inc, Kempower OY, Daimler AG, EFACEC Power Solutions SGPS, S.A., STATE GRID Corporation of China, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global electric bus charging infrastructure market.

To classify and forecast the global electric bus charging infrastructure market based on charger type, charging method, region.

To identify drivers and challenges for the global electric bus charging infrastructure market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global electric bus charging infrastructure market.

To identify and analyze the profile of leading players operating in the global electric bus charging infrastructure market.

Why Choose This Report

Gain a reliable outlook of the global electric bus charging infrastructure market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY CHARGER TYPE

DC charger
Pantograph

PART 6. MARKET BREAKDOWN BY CHARGING METHOD

Fast charging
Slow charging

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
Rest of the World (RoW)

PART 8. KEY COMPANIES

ABB Ltd.
Siemens AG
Schunk Group
Bombardier Inc
Kempower OY
Daimler AG
EFACEC Power Solutions SGPS, S.A.
STATE GRID Corporation of China

DISCLAIMER

I would like to order

Product name: Global Electric Bus Charging Infrastructure Market 2023-2029

Product link: <https://marketpublishers.com/r/G11A6CD02B3AEN.html>

Price: US\$ 2,650.00 (Single User License / Electronic Delivery)
