Global Embedded Hypervisor Market 2022-2028

https://marketpublishers.com/r/G7911E9295F6EN.html

Date: June 2022
Pages: 78
Price: US$ 2,600.00 (Single User License)
ID: G7911E9295F6EN

Abstracts

An embedded hypervisor is software that allows multiple computing environments to run simultaneously on a single system on a chip (SoC). It enables system designers to consolidate diverse operating systems (OSs) and applications with different reliability, safety and security requirements on one SoC. According to Gen Consulting Company, the global embedded hypervisor market is projected to reach USD 7,030 million, recording a CAGR of approximately 6.3 percent from 2022 to 2028.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global embedded hypervisor market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the embedded hypervisor industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the component, technology, organization size, end user, and region. The global market for embedded hypervisor can be segmented by component: solution, services. Globally, the solution segment made up the largest share of the embedded hypervisor market. Embedded hypervisor market is further segmented by technology: desktop visualization, server visualization, data center visualization. The desktop visualization segment captured the largest share of the market in 2021. Based on organization size, the embedded hypervisor market is segmented into: large enterprise, small and medium-sized enterprises (SMEs). On the basis of end user, the embedded hypervisor market also can be divided into: aerospace and defense, automotive and transportation, BFSI, healthcare, IT and telecommunication, others. Embedded hypervisor market by region is categorized into: Asia Pacific, Europe, North America, Rest of the World (RoW).

By component:

Global Embedded Hypervisor Market 2022-2028

solution

services

By technology:

desktop visualization

server visualization

data center visualization

By organization size:

large enterprise

small and medium-sized enterprises (SMEs)

By end user:

aerospace and defense

automotive and transportation

BFSI

healthcare

IT and telecommunication

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report also provides a detailed analysis of several leading embedded hypervisor market vendors that include BlackBerry Ltd., Citrix Systems, Inc., International Business Machines Corp., Lynx Software Technologies, Inc., Microsoft Corporation, NXP Semiconductors N.V., Siemens AG, SYSGO AG, VMware, Inc., Wind River Systems, Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global embedded hypervisor market.

To classify and forecast the global embedded hypervisor market based on component, technology, organization size, end user, region.

To identify drivers and challenges for the global embedded hypervisor market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global embedded hypervisor market.

To identify and analyze the profile of leading players operating in the global embedded hypervisor market.

Why Choose This Report

Gain a reliable outlook of the global embedded hypervisor market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY COMPONENT

Solution
Services

PART 6. MARKET BREAKDOWN BY TECHNOLOGY

Desktop visualization
Server visualization
Data center visualization

PART 7. MARKET BREAKDOWN BY ORGANIZATION SIZE

Large enterprise
Small and medium-sized enterprises (SMEs)

PART 8. MARKET BREAKDOWN BY END USER

Aerospace and defense

Automotive and transportation

BFSI

Healthcare

IT and telecommunication

Others

PART 9. MARKET BREAKDOWN BY REGION

Asia Pacific

Europe

North America

Rest of the World (RoW)

PART 10. KEY COMPANIES

BlackBerry Ltd.

Citrix Systems, Inc.

International Business Machines Corp.

Lynx Software Technologies, Inc.

Microsoft Corporation

NXP Semiconductors N.V.

Siemens AG

SYSGO AG

VMware, Inc.

Wind River Systems, Inc.
