Abstracts

Endoscope reprocessing refers to the cleaning, disinfection, and sterilization of reusable endoscopes used in medical procedures. Endoscopes are thin tubes with a camera and light source that allow doctors to examine the inside of the body. They are used in a variety of medical procedures, such as gastrointestinal, respiratory, and urological procedures. Effective endoscope reprocessing is critical for preventing the transmission of infections from one patient to another. The reprocessing process typically involves several steps, including manual cleaning, high-level disinfection, and sterilization. According to the latest estimates, the global endoscope reprocessing market is set to achieve an incremental growth of USD 1.4 billion, accelerating at a CAGR of almost 8.3% during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global endoscope reprocessing market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, end user, and region. The global market for endoscope reprocessing can be segmented by product: disinfectants, reprocessing equipment, detergents, drying/storage/transport systems, others. The disinfectants segment captured the largest share of the market in 2022. Endoscope reprocessing market is further segmented by end user: hospitals, specialty clinics & medical office suites, standalone reprocessing service facilities. The hospitals segment held the largest share of the global endoscope reprocessing market in 2022 and is anticipated to hold its share during the forecast period. Based on region, the endoscope reprocessing market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and

Africa), Latin America. In 2022, North America made up the largest share of revenue generated by the endoscope reprocessing market.

The reprocessing equipment market is further segmented into automated endoscope reprocessors, disinfection & sterilization systems. According to the research, the automated endoscope reprocessors segment had the largest share in the global endoscope reprocessing market.

Market Segmentation

By product: disinfectants, reprocessing equipment, detergents, drying/storage/transport systems, others

By end user: hospitals, specialty clinics & medical office suites, standalone reprocessing service facilities

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading endoscope reprocessing market vendors that include STERIS Corporation, Getinge AB, Ecolab Inc., Olympus Corporation, 3M Company, Richard Wolf GmbH, Shinva Medical Instrument Co., Ltd., The Metall Zug Group, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global endoscope reprocessing market.

To classify and forecast the global endoscope reprocessing market based on product, end user, region.

To identify drivers and challenges for the global endoscope reprocessing market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global endoscope reprocessing market.

To identify and analyze the profile of leading players operating in the global endoscope reprocessing market.

Why Choose This Report

Gain a reliable outlook of the global endoscope reprocessing market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.
Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY PRODUCT

Disinfectants
Reprocessing equipment
Detergents
Drying/storage/transport systems
Others

PART 6. MARKET BREAKDOWN BY END USER

Hospitals
Specialty clinics & medical office suites
Standalone reprocessing service facilities

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe

Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 8. KEY COMPANIES

STERIS Corporation
Getinge AB
Ecolab Inc.
Olympus Corporation
3M Company
Richard Wolf GmbH
Shinva Medical Instrument Co., Ltd.
The Metall Zug Group
