Abstracts

Exterior Insulation and Finish System (EIFS) is a type of building cladding system that provides insulation, weatherproofing, and decorative finish to a building's exterior walls. It is also known as synthetic stucco or exterior plaster. According to the latest data, the market size of the global exterior insulation and finish system sector is expected to rise by USD 118.2 billion with a CAGR of 11.58% by the end of 2029. EIFS is a popular choice for commercial and residential buildings because of its energy efficiency, durability, and aesthetic appeal. It can also be used to retrofit existing buildings to improve their energy efficiency and appearance. EIFS is a popular choice for commercial and residential buildings because of its energy efficiency, durability, and aesthetic appeal. It can also be used to retrofit existing buildings to improve their energy efficiency and appearance.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global exterior insulation and finish system market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, component, insulation type, thickness, and region. The global market for exterior insulation and finish system can be segmented by type: PB (polymer-based), PM (polymer-modified). In 2022, the PB (polymer-based) segment made up the largest share of revenue generated by the exterior insulation and finish system market. Exterior insulation and finish system market is further segmented by component: adhesives, insulation board, base coat, reinforcement, finish coat. The base

coat segment was the largest contributor to the global exterior insulation and finish system market in 2022. Based on insulation type, the exterior insulation and finish system market is segmented into: EPS (expanded polystyrene), MW (mineral wool), others. The MW (mineral wool) segment is estimated to account for the largest share of the global exterior insulation and finish system market. On the basis of thickness, the exterior insulation and finish system market also can be divided into: 1-3 inches, 3-6 inches, more than 6 inches. The 1-3 inches segment held the largest share of the global exterior insulation and finish system market in 2022 and is anticipated to hold its share during the forecast period. Exterior insulation and finish system market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

Market Segmentation

By type: PB (polymer-based), PM (polymer-modified)

By component: adhesives, insulation board, base coat, reinforcement, finish coat

By insulation type: EPS (expanded polystyrene), MW (mineral wool), others

By thickness: 1-3 inches, 3-6 inches, more than 6 inches

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report explores the recent developments and profiles of key vendors in the Global Exterior Insulation and Finish System Market, including BASF SE, Saint Gobain SA, Wacker Chemie AG, Sto SE & Co KgaA, Owen Corning, Dryvit Systems Inc., Parex USA, Inc., Sika AG, Durabond Products Limited, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global exterior insulation and finish system market.

To classify and forecast the global exterior insulation and finish system market based on type, component, insulation type, thickness, region.

To identify drivers and challenges for the global exterior insulation and finish system market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global exterior insulation and finish system market.

To identify and analyze the profile of leading players operating in the global exterior

insulation and finish system market.

Why Choose This Report

Gain a reliable outlook of the global exterior insulation and finish system market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TYPE

PB (polymer-based)
PM (polymer-modified)

PART 6. MARKET BREAKDOWN BY COMPONENT

Adhesives
Insulation board
Base coat
Reinforcement
Finish coat

PART 7. MARKET BREAKDOWN BY INSULATION TYPE

EPS (expanded polystyrene)
MW (mineral wool)
Others

PART 8. MARKET BREAKDOWN BY THICKNESS

1-3 inches
3-6 inches
More than 6 inches

PART 9. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 10. KEY COMPANIES

BASF SE
Saint Gobain SA
Wacker Chemie AG
Sto SE & Co KgaA
Owen Corning
Dryvit Systems Inc.
Parex USA, Inc.
Sika AG
Durabond Products Limited
