Abstracts

Eye testing equipment is a set of instruments and devices that ophthalmologists or optometrists use to examine and diagnose different eye conditions. Each of these devices performs a specific function to aid in the diagnosis and management of eye health. According to the latest data, the market size of the global eye testing equipment sector is expected to rise by USD 1.6 billion with a CAGR of 6.95% by the end of 2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global eye testing equipment market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the test equipment, application, end user, and region. The global market for eye testing equipment can be segmented by test equipment: autorefractor & phoropter, optical coherence tomography, fundus camera, perimetry, tonometer, biometer, slit lamp. The autorefractor & phoropter segment captured the largest share of the market in 2022. Eye testing equipment market is further segmented by application: general examination, cataract, glaucoma, age-related macular degeneration (AMD), others. The general examination segment held the largest share of the global eye testing equipment market in 2022 and is anticipated to hold its share during the forecast period. Based on end user, the eye testing equipment market is segmented into: hospitals & eye clinics, ambulatory surgical centers, optometry academic institutes, others. In 2022, the hospitals & eye clinics segment made up the largest share of revenue generated by the eye testing equipment market. On the basis of region, the eye testing equipment market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Among these, North

America was accounted for the highest revenue generator in 2022.

Market Segmentation

By test equipment: autorefractor & phoropter, optical coherence tomography, fundus camera, perimetry, tonometer, biometer, slit lamp

By application: general examination, cataract, glaucoma, age-related macular degeneration (AMD), others

By end user: hospitals & eye clinics, ambulatory surgical centers, optometry academic institutes, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The global eye testing equipment market report offers detailed information on several market vendors, including Carl Zeiss AG, Topcon Corporation, Nidek Co., Ltd., The Haag-Streit Group, AMETEK, Inc., Canon Medical Systems Corporation, Essilor International SAS, IRIDEX Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global eye testing equipment market.

To classify and forecast the global eye testing equipment market based on test equipment, application, end user, region.

To identify drivers and challenges for the global eye testing equipment market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global eye testing equipment market.

To identify and analyze the profile of leading players operating in the global eye testing equipment market.

Why Choose This Report

Gain a reliable outlook of the global eye testing equipment market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TEST EQUIPMENT

Autorefractor & phoropter
Optical coherence tomography
Fundus camera
Perimetry
Tonometer
Biometer
Slit lamp

PART 6. MARKET BREAKDOWN BY APPLICATION

General examination
Cataract
Glaucoma
Age-related macular degeneration (AMD)
Others

PART 7. MARKET BREAKDOWN BY END USER

Hospitals & eye clinics
Ambulatory surgical centers
Optometry academic institutes
Others

PART 8. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 9. KEY COMPANIES

Carl Zeiss AG
Topcon Corporation
Nidek Co., Ltd.
The Haag-Streit Group
AMETEK, Inc.
Canon Medical Systems Corporation
Essilor International SAS
IRIDEX Corporation
