Abstracts

The global flue gas desulfurization market is projected to rise by USD 8 billion by 2028, according to a new report by Gen Consulting Company. It is anticipated to expand at a CAGR of 5.7 percent during the forecast period.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global flue gas desulfurization market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the flue gas desulfurization industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, deployment, end user, and region. The global market for flue gas desulfurization can be segmented by type: dry and semi-dry FGD, wet FGD. In 2021, the wet FGD segment made up the largest share of revenue generated by the flue gas desulfurization market. Flue gas desulfurization market is further segmented by deployment: brownfield, greenfield. Based on end user, the flue gas desulfurization market is segmented into: cement, chemicals, iron and steel, power generation, others. The power generation segment is estimated to account for the largest share of the global flue gas desulfurization market. On the basis of region, the flue gas desulfurization market also can be divided into: Asia Pacific, Europe, North America, Rest of the World (RoW). Asia Pacific held the largest share of the global flue gas desulfurization market in 2021 and is anticipated to hold its share during the forecast period.

By type:

dry and semi-dry FGD

wet FGD

By deployment:

brownfield

greenfield

By end user:

cement

chemicals

iron and steel

power generation

others

By region:

Asia Pacific

Europe

North America

Rest of the World (RoW)

The report explores the recent developments and profiles of key vendors in the Global Flue Gas Desulfurization Market, including Babcock & Wilcox Enterprises, Inc., Chiyoda Corporation, Doosan Corporation, Ducon Infratechnologies Ltd., General Electric

Company, Marsulex Environmental Technologies Corporation (MET), Mitsubishi Heavy Industries, Ltd., Rafako S.A., Valmet Oyj, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global flue gas desulfurization market.

To classify and forecast the global flue gas desulfurization market based on type, deployment, end user, region.

To identify drivers and challenges for the global flue gas desulfurization market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global flue gas desulfurization market.

To identify and analyze the profile of leading players operating in the global flue gas desulfurization market.

Why Choose This Report

Gain a reliable outlook of the global flue gas desulfurization market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY TYPE

Dry and semi-dry FGD
Wet FGD

PART 6. MARKET BREAKDOWN BY DEPLOYMENT

Brownfield
Greenfield

PART 7. MARKET BREAKDOWN BY END USER

Cement
Chemicals
Iron and steel
Power generation
Others

PART 8. MARKET BREAKDOWN BY REGION

Asia Pacific

Europe

North America

Rest of the World (RoW)

PART 9. KEY COMPANIES

Babcock & Wilcox Enterprises, Inc.

Chiyoda Corporation

Doosan Corporation

Ducon Infratechnologies Ltd.

General Electric Company

Marsulex Environmental Technologies Corporation (MET)

Mitsubishi Heavy Industries, Ltd.

Rafako S.A.

Valmet Oyj
