## Abstracts

Access to sufficient amounts of safe and nutritious food is key to sustaining life and promoting good health. Unsafe food containing harmful bacteria, viruses, parasites or chemical substances causes more than 200 diseases, ranging from diarrhoea to cancers. Food safety testing is a scientific-based method that evaluates the safety of food based on microbiological, physical, or chemical composition. Food safety testing is considered as the most important step despite being the last process of the food manufacturing chain. The global food safety testing market is likely to register a CAGR of over 6.2% with an incremental growth of USD 9.0 billion during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global food safety testing market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the contaminant, technology, application, and region. The global market for food safety testing can be segmented by contaminant: allergens, GMOs, pathogens, pesticides and residues, toxins, others. The pathogens segment was the largest contributor to the global food safety testing market in 2022. Food safety testing market is further segmented by technology: analytical instrument-based, immunoassay-based, molecular-based, traditional microbiology, others. According to the research, the immunoassay-based segment had the largest share in the global food safety testing market. Based on application, the food safety testing market is segmented into: pet food and animal feed, food. The food segment held the largest revenue share in 2022. On the basis of region, the food safety testing market also can be divided into:

Asia Pacific, Europe, North America, Rest of the World (RoW). Globally, North America made up the largest share of the food safety testing market.

The food market is further segmented into cereals and grains, dairy products, fish and seafood, fruits and vegetables, meat and poultry, eggs, beverages, others. The meat and poultry segment is estimated to account for the largest share of the global food safety testing market. Furthermore, the pathogens market has been categorized into E.coli, Listeria, Salmonella, Campylobacter, others. The Salmonella segment held the largest share of the global food safety testing market in 2022 and is anticipated to hold its share during the forecast period.

### Market Segmentation

By contaminant: allergens, GMOs, pathogens, pesticides and residues, toxins, others

By technology: analytical instrument-based, immunoassay-based, molecular-based, traditional microbiology, others

By application: pet food and animal feed, food

By region: Asia Pacific, Europe, North America, Rest of the World (RoW)

The report also provides analysis of the key companies of the industry and their detailed company profiles including 3M Company, ALS Limited, AsureQuality Limited, BioControl Systems, Inc., Bio-Rad Laboratories, Inc., Bureau Veritas S.A., Charm Sciences, Inc., ELISA Technologies, Inc., EMSL Analytical, Inc., EnviroLogix Inc., Eurofins Scientific SE, FHHL Private Limited (Food Hygiene and Health Laboratory), Genetic ID NA Inc., Intertek Group plc, Merieux Nutrisciences Corp., Neogen Corporation, NSF International Food Safety LLC, SGS S.A., Strategic Diagnostics Inc. (SDIX, LLC), Tuv Sued AG, UL LLC, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

### Scope of the Report

To analyze and forecast the market size of the global food safety testing market.

To classify and forecast the global food safety testing market based on

contaminant, technology, application, region.

To identify drivers and challenges for the global food safety testing market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global food safety testing market.

To identify and analyze the profile of leading players operating in the global food safety testing market.

### Why Choose This Report

Gain a reliable outlook of the global food safety testing market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY CONTAMINANT**

Allergens  
GMOs  
Pathogens  
Pesticides and residues  
Toxins  
Others

### **PART 6. MARKET BREAKDOWN BY TECHNOLOGY**

Analytical instrument-based  
Immunoassay-based  
Molecular-based  
Traditional microbiology  
Others

### **PART 7. MARKET BREAKDOWN BY APPLICATION**

Pet food and animal feed  
Food

## **PART 8. MARKET BREAKDOWN BY REGION**

Asia Pacific  
Europe  
North America  
Rest of the World (RoW)

## **PART 9. KEY COMPANIES**

3M Company  
ALS Limited  
AsureQuality Limited  
BioControl Systems, Inc.  
Bio-Rad Laboratories, Inc.  
Bureau Veritas S.A.  
Charm Sciences, Inc.  
ELISA Technologies, Inc.  
EMSL Analytical, Inc.  
EnviroLogix Inc.  
Eurofins Scientific SE  
FHHL Private Limited (Food Hygiene and Health Laboratory)  
Genetic ID NA Inc.  
Intertek Group plc  
Merieux Nutrisciences Corp.  
Neogen Corporation  
NSF International Food Safety LLC  
SGS S.A.  
Strategic Diagnostics Inc. (SDIX, LLC)  
Tuev Sued AG  
UL LLC
