Abstracts

Gastrointestinal endoscopy is a medical procedure used to inspect and diagnose disorders of the gastrointestinal (GI) tract, which includes the esophagus, stomach, small intestine, and colon. Gastrointestinal endoscopy is performed using a flexible endoscope, which is a long, thin tube with a tiny camera and light at the end. The endoscope is inserted through the mouth or anus, and allows for the visual inspection and sometimes removal of abnormal tissue or growths. The global gastrointestinal endoscopy market is expected to increase by USD 8.1 billion, at a compound annual growth rate (CAGR) of 7.13% from 2023 to 2029, according to the latest edition of the Global Gastrointestinal Endoscopy Market Report. The increasing prevalence of diseases such as gastroesophageal reflux disease (GERD), inflammatory bowel disease (IBD), and colorectal cancer is driving the demand for gastrointestinal endoscopy procedures. In addition, the global aging population is a significant driver of the gastrointestinal endoscopy market since older adults are more prone to gastrointestinal diseases and disorders. The increasing prevalence of diseases such as gastroesophageal reflux disease (GERD), inflammatory bowel disease (IBD), and colorectal cancer is driving the demand for gastrointestinal endoscopy procedures. In addition, the global aging population is a significant driver of the gastrointestinal endoscopy market since older adults are more prone to gastrointestinal diseases and disorders.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global gastrointestinal endoscopy market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed

by a detailed analysis of the type, end user, and region. The global market for gastrointestinal endoscopy can be segmented by type: gastrointestinal endoscopes and endoscopic systems, gastrointestinal endotherapy. The gastrointestinal endotherapy segment was the largest contributor to the global gastrointestinal endoscopy market in 2022. Gastrointestinal endoscopy market is further segmented by end user: hospitals, ambulatory surgery centers, others. According to the research, the hospitals segment had the largest share in the global gastrointestinal endoscopy market. Based on region, the gastrointestinal endoscopy market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. North America held the largest revenue share in 2022.

The gastrointestinal endotherapy market is further segmented into ultrasound endoscopes, gastrointestinal stents, balloon dilators, biopsy devices, retrieval devices, hemostasis devices, ERCP devices, others. The ERCP devices segment is estimated to account for the largest share of the global gastrointestinal endoscopy market. Furthermore, the gastrointestinal endoscopes and endoscopic systems market has been categorized into capsule endoscopes, gastrointestinal videoscopes, visualization systems. The gastrointestinal videoscopes segment held the largest share of the global gastrointestinal endoscopy market in 2022 and is anticipated to hold its share during the forecast period.

Market Segmentation

By type: gastrointestinal endoscopes and endoscopic systems, gastrointestinal endotherapy

By end user: hospitals, ambulatory surgery centers, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides analysis of the key companies of the industry and their detailed company profiles including Ambu A/S, Check-Cap Ltd., Cook Group Incorporated, FUJIFILM Holdings Corporation, Medtronic plc, SonoScape Medical Corp., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global gastrointestinal endoscopy market.

To classify and forecast the global gastrointestinal endoscopy market based on type,

end user, region.

To identify drivers and challenges for the global gastrointestinal endoscopy market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global gastrointestinal endoscopy market.

To identify and analyze the profile of leading players operating in the global gastrointestinal endoscopy market.

Why Choose This Report

Gain a reliable outlook of the global gastrointestinal endoscopy market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TYPE

Gastrointestinal endoscopes and endoscopic systems
Gastrointestinal endotherapy

PART 6. MARKET BREAKDOWN BY END USER

Hospitals
Ambulatory surgery centers
Others

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 8. KEY COMPANIES

Ambu A/S

Check-Cap Ltd.

Cook Group Incorporated

FUJIFILM Holdings Corporation

Medtronic plc

SonoScape Medical Corp.
