Abstracts

The global geospatial imagery analytics market is likely to register a CAGR of over 2.9% with an incremental growth of USD 4.7 billion during the forecast period 2022-2028.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global geospatial imagery analytics market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the geospatial imagery analytics industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the solution, application, and region. The global market for geospatial imagery analytics can be segmented by solution: data acquisition, data processing, analytics, integrated delivery platform. The analytics segment held the largest revenue share in 2021. Geospatial imagery analytics market is further segmented by application: agriculture and forestry, aviation, maritime, logistics & transportation, business intelligence, energy, finance and insurance, government and defense, healthcare, infrastructure and construction, mining, oil and gas, surveying and cartography, others, others. Among these, the infrastructure and construction segment was accounted for the highest revenue generator in 2021. Based on region, the geospatial imagery analytics market is segmented into: Asia Pacific, Europe, North America, Rest of the World (RoW). Europe captured the largest share of the market in 2021.

Market Segmentation

By solution: data acquisition, data processing, analytics, integrated delivery platform

By application: agriculture and forestry, aviation, maritime, logistics & transportation, business intelligence, energy, finance and insurance, government and defense, healthcare, infrastructure and construction, mining, oil and gas, surveying and cartography, others, others

By region: Asia Pacific, Europe, North America, Rest of the World (RoW)

The market research report covers the analysis of key stake holders of the global geospatial imagery analytics market. Some of the leading players profiled in the report include BlackSky Technology Inc., Capella Space Corp., Descartes Labs, Inc. (Antarctica Capital, LLC), EagleView Technologies, Inc., Esri Global, Inc., GHGSat Incorporated, Kongsberg Satellite Services AS (KSAT), L3Harris Technologies, Inc., Maxar Technologies Inc., MDA Ltd., Planet Labs PBC, Satellogic Inc., Spire Global, Inc., TomTom N.V., VETRO, Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global geospatial imagery analytics market.

To classify and forecast the global geospatial imagery analytics market based on solution, application, region.

To identify drivers and challenges for the global geospatial imagery analytics market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global geospatial imagery analytics market.

To identify and analyze the profile of leading players operating in the global geospatial imagery analytics market.

Why Choose This Report

Gain a reliable outlook of the global geospatial imagery analytics market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
