## Abstracts

A golf cart (alternatively known as a golf buggy or golf car) is a small motorized vehicle used on a golf course to transport both the golfer's bag and the golfer herself. Most commonly, a buggy is built to seat two passengers plus two golf bags. But single-seaters and buggies built for more than two are also sometimes seen on the golf course. Gen Consulting Company predicts global golf cart market will grow from USD 2,059 million in 2021 to USD 2,962 million by 2028, achieving a CAGR of 5.4 percent, according to the latest edition of the Global Golf Cart Market Report.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global golf cart market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the golf cart industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, application, and region. The global market for golf cart can be segmented by product: electric golf cart, gasoline golf cart, solar golf cart. The electric golf buggy segment captured the largest share of the market in 2021. Golf cart market is further segmented by application: commercial services, public golf course, residential services.
