Abstracts

The global ground interference cancellation market is likely to register a CAGR of over 4.8% with an incremental growth of USD 113.0 million during the forecast period 2023-2029.

This industry report offers market estimates of the global market, followed by a detailed analysis of the type of signal canceller, interference cancellation type, interference cancellation structure, and region. The global market data on ground interference cancellation can be segmented by type of signal canceller: analog canceller, digital canceller. Among these, the digital canceller segment was accounted for the highest revenue generator in 2022. Ground interference cancellation market is further segmented by interference cancellation type: electronic, radio frequency (RF)/electromagnetic interference (EMI). The RF/EMI segment is estimated to account for the largest share of the global ground interference cancellation market. Based on interference cancellation structure, the ground interference cancellation market is segmented into: cosite interference, offsite interference. The cosite interference segment held the largest share of the global ground interference cancellation market in 2022 and is anticipated to hold its share during the forecast period. On the basis of region, the ground interference cancellation market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. In 2022, North America made up the largest share of revenue generated by the ground interference cancellation market.

The global ground interference cancellation market is highly competitive. Some of the leading companies operating in the market are BAE Systems plc, Cobham Limited, Kratos Defense & Security Solutions Inc., Kumu Networks Inc., L3Harris Technologies Inc., MagiQ Technologies Inc., Northrop Grumman Corporation, Thales S.A., TrellisWare Technologies Inc.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.
