Abstracts

Hair color products are cosmetic products that are designed to change or enhance the natural color of hair. These products can be used to cover gray hair, create a new look, or enhance natural hair color. Hair color products come in a variety of forms, including permanent, semi-permanent, and temporary dyes, as well as henna and hair color sprays. According to the latest estimates, the global hair color market is set to achieve an incremental growth of USD 2.1 billion, accelerating at a CAGR of almost 6.21% during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global hair color market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, category, nature, form, end user, distribution channel, and region. The global market for hair color can be segmented by product: permanent hair color, demi-permanent hair color, semi-permanent hair color, temporary hair color, root touch-up, others. Among these, the permanent hair color segment was accounted for the highest revenue generator in 2022. Hair color market is further segmented by category: conventional, natural & organic. The conventional segment is estimated to account for the largest share of the global hair color market. Based on nature, the hair color market is segmented into: professional, consumer (DIY). The professional segment held the largest share of the global hair color market in 2022 and is anticipated to hold its share during the forecast period. On the basis of form, the hair color market also can be divided into: powder, cream & gel, others. In 2022, the cream & gel segment made up the largest share of revenue generated by the hair color market. Hair color market by end user is categorized into: men, women, unisex. The

hair color market by distribution channel can be segmented into: store-based, non-store-based. Based on region, the hair color market is further categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

The store-based market is further segmented into supermarkets and hypermarkets, convenience stores, others. The supermarkets and hypermarkets segment captured the largest share of the market in 2022 and is expected to maintain its dominance during the forecast period.
