Abstracts

As electric vehicles (EVs) become more commonplace, the need for heavy-duty EV charging infrastructure is becoming increasingly important. Heavy-duty EV charging infrastructure refers to charging stations that are equipped to handle the high-power demands of trucks, buses, and other large vehicles. According to the latest estimates, the global heavy duty EV charging infrastructure market is set to achieve an incremental growth of USD 33.2 billion, accelerating at a CAGR of almost 35.69% during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global heavy duty EV charging infrastructure market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, charging method, and region. The global market for heavy duty EV charging infrastructure can be segmented by type: DC charger, AC charger. The DC charger segment held the largest revenue share in 2022. Heavy duty EV charging infrastructure market is further segmented by charging method: fast charging, slow charging. Among these, the fast charging segment was accounted for the highest revenue generator in 2022. Based on region, the heavy duty EV charging infrastructure market is segmented into: North America, Europe, Asia-Pacific, Rest of the World (RoW). Asia-Pacific captured the largest share of the market in 2022.

Market Segmentation

By type: DC charger, AC charger

By charging method: fast charging, slow charging

By region: North America, Europe, Asia-Pacific, Rest of the World (RoW)

The market research report covers the analysis of key stake holders of the global heavy duty EV charging infrastructure market. Some of the leading players profiled in the report include ABB Ltd., Siemens AG, Bombardier Inc., Kehua Hengsheng Co., Ltd., Kempower Oy, Tesla Inc., Proterra Inc., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

Scope of the Report

To analyze and forecast the market size of the global heavy duty EV charging infrastructure market.

To classify and forecast the global heavy duty EV charging infrastructure market based on type, charging method, region.

To identify drivers and challenges for the global heavy duty EV charging infrastructure market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global heavy duty EV charging infrastructure market.

To identify and analyze the profile of leading players operating in the global heavy duty EV charging infrastructure market.

Why Choose This Report

Gain a reliable outlook of the global heavy duty EV charging infrastructure market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints

PART 5. MARKET BREAKDOWN BY TYPE

DC charger
AC charger

PART 6. MARKET BREAKDOWN BY CHARGING METHOD

Fast charging
Slow charging

PART 7. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
Rest of the World (RoW)

PART 8. KEY COMPANIES

ABB Ltd.
Siemens AG
Bombardier Inc.
Kehua Hengsheng Co., Ltd.
Kempower Oy
Tesla Inc.
Proterra Inc.

DISCLAIMER

I would like to order

Product name: Global Heavy Duty EV Charging Infrastructure Market 2023-2029

Product link: <https://marketpublishers.com/r/G2789ABF054AEN.html>

Price: US\$ 2,650.00 (Single User License / Electronic Delivery)
