## Abstracts

High-performance insulation materials are a class of building and construction materials designed to provide superior thermal insulation, sound insulation, and fire resistance properties while being durable and lightweight. These materials are used in various industries, including building construction, aerospace, automotive, and industrial manufacturing. The global high-performance insulation materials market is likely to register a CAGR of over 7.52% with an incremental growth of USD 3.5 billion during the forecast period 2023-2029.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global high-performance insulation materials market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the material type, end user, and region. The global market for high-performance insulation materials can be segmented by material type: aerogel, vacuum insulation panel (VIP), fiberglass, ceramic fiber, high-performance foam, others. The vacuum insulation panel (VIP) segment captured the largest share of the market in 2022. High-performance insulation materials market is further segmented by end user: oil and gas, industrial, construction, transportation, power, others. The industrial segment held the largest share of the global high-performance insulation materials market in 2022 and is anticipated to hold its share during the forecast period. Based on region, the high-performance insulation materials market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. In 2022,

North America made up the largest share of revenue generated by the high-performance insulation materials market.

#### Market Segmentation

By material type: aerogel, vacuum insulation panel (VIP), fiberglass, ceramic fiber, high-performance foam, others

By end user: oil and gas, industrial, construction, transportation, power, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading high-performance insulation materials market vendors that include Rockwool A/S, Compagnie de Saint-Gobain S.A., Unifrax Corporation, 3M Company, Armacell, LLC, Aspen Aerogels, Inc., BASF SE, Cabot Corporation, Ibiden Co., Ltd., Johns Manville Corporation, Knauf Gips KG, Luyang Energy-Saving Materials Co., Ltd., Morgan Advanced Materials plc, Owens Corning, Panasonic Corporation, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

#### Scope of the Report

To analyze and forecast the market size of the global high-performance insulation materials market.

To classify and forecast the global high-performance insulation materials market based on material type, end user, region.

To identify drivers and challenges for the global high-performance insulation materials market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global high-performance insulation materials market.

To identify and analyze the profile of leading players operating in the global high-performance insulation materials market.

#### Why Choose This Report

Gain a reliable outlook of the global high-performance insulation materials market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY MATERIAL TYPE**

Aerogel  
Vacuum insulation panel (VIP)  
Fiberglass  
Ceramic fiber  
High-performance foam  
Others

### **PART 6. MARKET BREAKDOWN BY END USER**

Oil and gas  
Industrial  
Construction  
Transportation  
Power  
Others

## **PART 7. MARKET BREAKDOWN BY REGION**

North America

Europe

Asia-Pacific

MEA (Middle East and Africa)

Latin America

## **PART 8. KEY COMPANIES**

Rockwool A/S

Compagnie de Saint-Gobain S.A.

Unifrax Corporation

3M Company

Armacell, LLC

Aspen Aerogels, Inc.

BASF SE

Cabot Corporation

Ibiden Co., Ltd.

Johns Manville Corporation

Knauf Gips KG

Luyang Energy-Saving Materials Co., Ltd.

Morgan Advanced Materials plc

Owens Corning

Panasonic Corporation

## **DISCLAIMER**

## I would like to order

Product name: Global High-Performance Insulation Materials Market 2023-2029

Product link: <https://marketpublishers.com/r/G6D0EE3AB3A7EN.html>

Price: US\$ 2,650.00 (Single User License / Electronic Delivery)
