Abstracts

High temperature fibers are designed for harsh temperature (200°C and above). Major high temperature fibers include aramid fiber, carbon fiber, ceramic fiber and basalt fiber. High temperature fibers are witnessing significant growth on account of the growing demand for heat and fire resistant fibers from various end use applications. The market for high temperature fiber worldwide is expected to reach USD 11,685 million by 2028, recording a CAGR of 6.7% over the forecast period as per the latest report by Gen Consulting Company.

The report provides in-depth analysis and insights regarding the current global market scenario, latest trends and drivers into global high temperature fiber market. It offers an exclusive insight into various details such as market size, key trends, competitive landscape, growth rate and market segments. This study also provides an analysis of the impact of the COVID-19 crisis on the high temperature fiber industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the product, application, and region. The global market for high temperature fiber can be segmented by product: aramid fiber, ceramic fiber, carbon fiber, others. The aramid fiber segment is estimated to account for the largest share of the global high temperature fiber market. High temperature fiber market is further segmented by application: security & protection, automotive & transportation, aerospace, industrial, electrical & electronics, power & energy, others. The security & protection segment held the largest revenue share in 2021. Based on region, the high temperature fiber market is segmented into: North America, Asia Pacific, Europe, Rest of the World (ROW).

By product:

aramid fiber

ceramic fiber

carbon fiber

others

By application:

security & protection

automotive & transportation

aerospace

industrial

electrical & electronics

power & energy

others

By region:

North America

Asia Pacific

Europe

Rest of the World (ROW)

The market research report covers the analysis of key stake holders of the global high temperature fiber market. Some of the leading players profiled in the report include China National Bluestar (Group) Co., Ltd., E. I. du Pont de Nemours and Company,

Formosa Plastics Corporation, Hexcel Corporation, Hyosung Corporation, Kolon Industries Inc., Luyang Energy-saving Materials Co., Ltd., Mitsubishi Chemical Holdings Corporation, Morgan Advanced Materials plc, SGL Carbon SE, Solvay S.A., Teijin Limited, Toray Industries, Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global high temperature fiber market.

To classify and forecast the global high temperature fiber market based on product, application, region.

To identify drivers and challenges for the global high temperature fiber market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global high temperature fiber market.

To identify and analyze the profile of leading players operating in the global high temperature fiber market.

Why Choose This Report

Gain a reliable outlook of the global high temperature fiber market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY PRODUCT

Aramid fiber
Ceramic fiber
Carbon fiber
Others

PART 6. MARKET BREAKDOWN BY APPLICATION

Security & protection
Automotive & transportation
Aerospace
Industrial
Electrical & electronics
Power & energy
Others

PART 7. MARKET BREAKDOWN BY REGION

North America

Asia Pacific

Europe

Rest of the World (ROW)

PART 8. KEY COMPANIES

China National Bluestar (Group) Co., Ltd.

E. I. du Pont de Nemours and Company

Formosa Plastics Corporation

Hexcel Corporation

Hyosung Corporation

Kolon Industries Inc.

Luyang Energy-saving Materials Co., Ltd.

Mitsubishi Chemical Holdings Corporation

Morgan Advanced Materials plc

SGL Carbon SE

Solvay S.A.

Teijin Limited

Toray Industries, Inc.
