Abstracts

The global human identification market is anticipated to increase by USD 562.0 million till 2028 at an average annual growth of 11.5 percent as per the latest report by Gen Consulting Company.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global human identification market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the human identification industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the technology, type, application, and region. The global market for human identification can be segmented by technology: polymerase chain reaction (PCR), Next generation sequencing (NGS), nucleic acid purification and extraction, capillary electrophoresis, rapid DNA analysis, others. The polymerase chain reaction (PCR) segment was the largest contributor to the global human identification market in 2021. Human identification market is further segmented by type: instrument, assay kit and reagent, software and service. According to the research, the assay kit and reagent segment had the largest share in the global human identification market. Based on application, the human identification market is segmented into: forensic application, paternity testing, others. The forensic application segment held the largest revenue share in 2021. On the basis of region, the human identification market also can be divided into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. Globally, North America made up the largest share of the human identification market.

Market Segmentation

By technology: polymerase chain reaction (PCR), Next generation sequencing (NGS), nucleic acid purification and extraction, capillary electrophoresis, rapid DNA analysis, others

By type: instrument, assay kit and reagent, software and service

By application: forensic application, paternity testing, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides analysis of the key companies of the industry and their detailed company profiles including Ande Corporation, Bio-Rad Laboratories Inc., Genetek Biopharma GmbH, Hamilton Bonaduz AG, Laboratory Corporation of America Holdings, Promega Corporation, Qiagen N.V., Thermo Fisher Scientific Inc., Verogen Inc., among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global human identification market.

To classify and forecast the global human identification market based on technology, type, application, region.

To identify drivers and challenges for the global human identification market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global human identification market.

To identify and analyze the profile of leading players operating in the global human identification market.

Why Choose This Report

Gain a reliable outlook of the global human identification market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

Contents

PART 1. INTRODUCTION

Report description
Objectives of the study
Market segment
Years considered for the report
Currency
Key target audience

PART 2. METHODOLOGY

PART 3. EXECUTIVE SUMMARY

PART 4. MARKET OVERVIEW

Introduction
Drivers
Restraints
Impact of COVID-19 pandemic

PART 5. MARKET BREAKDOWN BY TECHNOLOGY

Polymerase chain reaction (PCR)
Next generation sequencing (NGS)
Nucleic acid purification and extraction
Capillary electrophoresis
Rapid DNA analysis
Others

PART 6. MARKET BREAKDOWN BY TYPE

Instrument
Assay kit and reagent
Software and service

PART 7. MARKET BREAKDOWN BY APPLICATION

Forensic application
Paternity testing
Others

PART 8. MARKET BREAKDOWN BY REGION

North America
Europe
Asia-Pacific
MEA (Middle East and Africa)
Latin America

PART 9. KEY COMPANIES

Ande Corporation
Bio-Rad Laboratories Inc.
Genetek Biopharma GmbH
Hamilton Bonaduz AG
Laboratory Corporation of America Holdings
Promega Corporation
Qiagen N.V.
Thermo Fisher Scientific Inc.
Verogen Inc.
