Abstracts

The global hyperspectral imaging market size is projected to grow by USD 208 million from 2022 to 2028, registering a CAGR of 14 percent, according to a new report by Gen Consulting Company.

This industry report offers market estimates of the global market, followed by a detailed analysis of the system, technology, application, and region. The global market data on hyperspectral imaging can be segmented by system: airborne cameras, benchtop cameras, outdoor cameras, software. Among these, the airborne cameras segment was accounted for the highest revenue generator in 2021. Hyperspectral imaging market is further segmented by technology: spatial scanning, spectral scanning. The spectral scanning segment is estimated to account for the largest share of the global hyperspectral imaging market. Based on application, the hyperspectral imaging market is segmented into: food and agriculture, healthcare, military, mining and metrology, others. The healthcare segment held the largest share of the global hyperspectral imaging market in 2021 and is anticipated to hold its share during the forecast period. On the basis of region, the hyperspectral imaging market also can be divided into: North America, Europe, Asia-Pacific, Rest of the World. In 2021, North America made up the largest share of revenue generated by the hyperspectral imaging market.

The prominent players operating in the global hyperspectral imaging market include Headwall Photonics Inc., imec VZW, Norsk Elektro Optikk AS, Northrop Grumman Corporation, Specim Spectral Imaging Ltd Oy, Surface Optics Corporation.

The data-centric report focuses on market trends, status and outlook for segments. With comprehensive market assessment across the major geographies, the report is a valuable asset for the existing players, new entrants and the future investors.

Why buy this report?

Get a detailed picture of the Global Hyperspectral Imaging Market

Identify segments/areas to invest in over the forecast period in the Global Hyperspectral Imaging Market

Understand the competitive environment, the market's leading players
