Abstracts

According to market research study published by Gen Consulting Company, the market size of the global indium phosphide wafer sector is expected to rise by USD 148.0 million with a CAGR of 13.4% by the end of 2028.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global indium phosphide wafer market. It traces the market's historic and forecast market growth. The report identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches. This study also provides an analysis of the impact of the COVID-19 crisis on the indium phosphide wafer industry.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the diameter, end user, and region. The global market for indium phosphide wafer can be segmented by diameter: 2 inches, 3 inches, 4 inches and above. The 4 inches and above segment is estimated to account for the largest share of the global indium phosphide wafer market. Indium phosphide wafer market is further segmented by end user: consumer electronic, telecommunication, healthcare, others. The telecommunication segment held the largest revenue share in 2021. Based on region, the indium phosphide wafer market is segmented into: North America, Europe, Asia-Pacific, Rest of the World (RoW). Globally, Asia-Pacific made up the largest share of the indium phosphide wafer market.

Market Segmentation

By diameter: 2 inches, 3 inches, 4 inches and above

By end user: consumer electronic, telecommunication, healthcare, others

By region: North America, Europe, Asia-Pacific, Rest of the World (RoW)

The report has also analysed the competitive landscape of the global indium phosphide wafer market with some of the key players being Axt Inc., Century Goldray Semiconductor Co., Ltd., Logitech Ltd., Semiconductor Wafer Inc., Western Minmetals (SC) Corporation, among others.

Historical & Forecast Period

This research report provides analysis for each segment from 2018 to 2028 considering 2021 to be the base year.

Scope of the Report

To analyze and forecast the market size of the global indium phosphide wafer market.

To classify and forecast the global indium phosphide wafer market based on diameter, end user, region.

To identify drivers and challenges for the global indium phosphide wafer market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global indium phosphide wafer market.

To identify and analyze the profile of leading players operating in the global indium phosphide wafer market.

Why Choose This Report

Gain a reliable outlook of the global indium phosphide wafer market forecasts from 2022 to 2028 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.
