## Abstracts

Industrial centrifuges are machines that use centrifugal force to separate materials or liquids of different densities. They are used in a wide range of industries, including pharmaceuticals, food and beverage, chemical processing, and wastewater treatment. According to the latest estimates, the global industrial centrifuges market is set to achieve an incremental growth of USD 2.2 billion, accelerating at a CAGR of almost 4.55% during the forecast period 2023-2029. Some of the benefits of using industrial centrifuges include increased efficiency, reduced labor costs, and improved product quality. They are also useful for reducing waste and minimizing environmental impact in industries such as wastewater treatment. Some of the benefits of using industrial centrifuges include increased efficiency, reduced labor costs, and improved product quality. They are also useful for reducing waste and minimizing environmental impact in industries such as wastewater treatment.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global industrial centrifuges market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the type, design, operation mode, end user, and region. The global market for industrial centrifuges can be segmented by type: sedimentation, filtering. The sedimentation segment held the largest share of the global industrial centrifuges market in 2022 and is anticipated to hold its share during the forecast period. Industrial centrifuges market is further segmented by design: horizontal centrifuge, vertical centrifuge. Globally, the vertical centrifuge segment made up the largest share of the industrial centrifuges market. Based on operation mode, the

Industrial centrifuges market is segmented into: batch, continuous. The batch segment was the largest contributor to the global industrial centrifuges market in 2022. On the basis of end user, the industrial centrifuges market also can be divided into: food and beverage, pharmaceutical, water treatment, chemical, metal and mining, power, pulp and paper, others. The chemical segment is estimated to account for the largest share of the global industrial centrifuges market. Industrial centrifuges market by region is categorized into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America.

The sedimentation market is further segmented into clarifier/thickener centrifuge, decanter centrifuge, disc stack centrifuge, hydrocyclone, others. In 2022, the decanter centrifuge segment made up the largest share of revenue generated by the industrial centrifuges market. Furthermore, the filtering market has been categorized into basket centrifuge, scroll screen centrifuge, peeler centrifuge, pusher centrifuge, other filtering centrifuges. Among these, the peeler centrifuge segment was accounted for the highest revenue generator in 2022.

#### Market Segmentation

By type: sedimentation, filtering

By design: horizontal centrifuge, vertical centrifuge

By operation mode: batch, continuous

By end user: food and beverage, pharmaceutical, water treatment, chemical, metal and mining, power, pulp and paper, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading industrial centrifuges market vendors that include MSE Hiller Ltd., Andritz AG, Alfa Laval AB, GEA Group AG, Multotec Pty Ltd., Flottweg SE, Ferrum Ltd., TOMOE Engineering Co., Ltd., among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

**\*REQUEST FREE SAMPLE TO GET A COMPLETE LIST OF COMPANIES**

#### Scope of the Report

To analyze and forecast the market size of the global industrial centrifuges market.

To classify and forecast the global industrial centrifuges market based on type, design, operation mode, end user, region.

To identify drivers and challenges for the global industrial centrifuges market.

To examine competitive developments such as mergers & acquisitions, agreements,

collaborations and partnerships, etc., in the global industrial centrifuges market.  
To identify and analyze the profile of leading players operating in the global industrial centrifuges market.

#### Why Choose This Report

Gain a reliable outlook of the global industrial centrifuges market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY TYPE**

Sedimentation  
Filtering

### **PART 6. MARKET BREAKDOWN BY DESIGN**

Horizontal centrifuge  
Vertical centrifuge

### **PART 7. MARKET BREAKDOWN BY OPERATION MODE**

Batch  
Continuous

### **PART 8. MARKET BREAKDOWN BY END USER**

Food and beverage

Pharmaceutical  
Water treatment  
Chemical  
Metal and mining  
Power  
Pulp and paper  
Others

## **PART 9. MARKET BREAKDOWN BY REGION**

North America  
Europe  
Asia-Pacific  
MEA (Middle East and Africa)  
Latin America

## **PART 10. KEY COMPANIES**

MSE Hiller Ltd.  
Andritz AG  
Alfa Laval AB  
GEA Group AG  
Multotec Pty Ltd.  
Flottweg SE  
Ferrum Ltd.  
TOMOE Engineering Co., Ltd.

## **DISCLAIMER**

## I would like to order

Product name: Global Industrial Centrifuges Market 2023-2029

Product link: <https://marketpublishers.com/r/G847678BDC00EN.html>

Price: US\$ 3,450.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
