## Abstracts

Industrial emission control systems include several technologies and processes aimed at reducing environmental pollution and mitigating the harmful effects of industrial emissions. These systems are designed to reduce the concentration of pollutants in the air, water, and soil by treating industrial emissions before they are released into the environment. The global industrial emission control systems market is anticipated to increase by USD 10.7 billion till 2029 at an average annual growth of 7.12 percent as per the latest market estimates. Industrial stakeholders have become increasingly aware of the environmental issues, which can arise from their processes, which has led to increased demand for industrial emission control systems. Several countries have strict environmental regulations that require industrial facilities to incorporate emission control systems. Compliance with these regulations has become a driving force in the market, and companies can look to reduce fines and penalties by installing these systems. Industrial stakeholders have become increasingly aware of the environmental issues, which can arise from their processes, which has led to increased demand for industrial emission control systems. Several countries have strict environmental regulations that require industrial facilities to incorporate emission control systems. Compliance with these regulations has become a driving force in the market, and companies can look to reduce fines and penalties by installing these systems.

The report covers market size and growth, segmentation, regional breakdowns, competitive landscape, trends and strategies for global industrial emission control systems market. It presents a quantitative analysis of the market to enable stakeholders to capitalize on the prevailing market opportunities. The report also identifies top segments for opportunities and strategies based on market trends and leading competitors' approaches.

This industry report offers market estimates and forecasts of the global market, followed by a detailed analysis of the device type, emission source, and region. The global market for industrial emission control systems can be segmented by device type: electrostatic precipitators, incinerators, scrubbers, filters, others. The electrostatic precipitators segment captured the largest share of the market in 2022. Industrial emission control systems market is further segmented by emission source: power, chemical, cement, mining, manufacturing, others. The power segment held the largest share of the global industrial emission control systems market in 2022 and is anticipated to hold its share during the forecast period. Based on region, the industrial emission control systems market is segmented into: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America. In 2022, Asia-Pacific made up the largest share of revenue generated by the industrial emission control systems market.

### Market Segmentation

By device type: electrostatic precipitators, incinerators, scrubbers, filters, others

By emission source: power, chemical, cement, mining, manufacturing, others

By region: North America, Europe, Asia-Pacific, MEA (Middle East and Africa), Latin America

The report also provides a detailed analysis of several leading industrial emission control systems market vendors that include Mitsubishi Power, Ltd., Johnson Matthey plc, BASF SE, Ducon Technologies Inc., General Electric Company, Thermax Ltd., Durr AG, among others. In this report, key players and their strategies are thoroughly analyzed to understand the competitive outlook of the market.

### Scope of the Report

To analyze and forecast the market size of the global industrial emission control systems market.

To classify and forecast the global industrial emission control systems market based on device type, emission source, region.

To identify drivers and challenges for the global industrial emission control systems market.

To examine competitive developments such as mergers & acquisitions, agreements, collaborations and partnerships, etc., in the global industrial emission control systems market.

To identify and analyze the profile of leading players operating in the global industrial emission control systems market.

### Why Choose This Report

Gain a reliable outlook of the global industrial emission control systems market forecasts from 2023 to 2029 across scenarios.

Identify growth segments for investment.

Stay ahead of competitors through company profiles and market data.

The market estimate for ease of analysis across scenarios in Excel format.

Strategy consulting and research support for three months.

Print authentication provided for the single-user license.

## Contents

### **PART 1. INTRODUCTION**

Report description  
Objectives of the study  
Market segment  
Years considered for the report  
Currency  
Key target audience

### **PART 2. METHODOLOGY**

### **PART 3. EXECUTIVE SUMMARY**

### **PART 4. MARKET OVERVIEW**

Introduction  
Drivers  
Restraints

### **PART 5. MARKET BREAKDOWN BY DEVICE TYPE**

Electrostatic precipitators  
Incinerators  
Scrubbers  
Filters  
Others

### **PART 6. MARKET BREAKDOWN BY EMISSION SOURCE**

Power  
Chemical  
Cement  
Mining  
Manufacturing  
Others

### **PART 7. MARKET BREAKDOWN BY REGION**

North America

Europe

Asia-Pacific

MEA (Middle East and Africa)

Latin America

## **PART 8. KEY COMPANIES**

Mitsubishi Power, Ltd.

Johnson Matthey plc

BASF SE

Ducon Technologies Inc.

General Electric Company

Thermax Ltd.

Durr AG

## **DISCLAIMER**

## I would like to order

Product name: Global Industrial Emission Control Systems Market 2023-2029

Product link: <https://marketpublishers.com/r/G3830CD2A3EFEN.html>

Price: US\$ 2,150.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/G3830CD2A3EFEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
